6. If Contractor will have access to University Data that includes "education records" as defined under the Family Educational Rights and Privacy Act (FERPA), the Contractor acknowledges that for the purposes of the Contract it will be designated as a "school official" with "legitimate educational interests" in the University education records, as those terms have been defined under FERPA and its implementing regulations, and the Contractor agrees to abide by the limitations and requirements imposed on school officials. Contractor will use the education records only for the purpose of fulfilling its duties under the Contract for Mason's and its end user's benefit, and will not share such data with or disclose it to any third party except as provided for in the Contract, required by law, or authorized in writing by the University.
7. Mason may require that Mason and Contractor complete a Data Processing Addendum ("DPA"). If a DPA is completed, Contractor agrees that the information in the DPA is accurate. Contractor will only collect or process University Data that is identified in the DPA and will only handle that data (e.g., type of processing activities, storage, security, disclosure) as described in the DPA. If Contractor intends to do anything regarding University Data that is not reflected in the DPA, Contractor must request an amendment to the DPA and may not take the intended action until the amendment is approved and documented by Mason.

PP. UNIVERSITY DATA SECURITY: Data security is of paramount concern to Mason. Contractor will utilize, store and process University Data in a secure environment in accordance with commercial best practices, including appropriate administrative, physical, and technical safeguards, to secure such data from unauthorized

access, disclosure, alteration, and use. Such measures will be no less protective than those used to secure Contractor's own data of a similar type, and in no event less than reasonable in view of the type and nature of the data involved. At a minimum, Contractor shall use industry-standard and up-to-date security tools and technologies such as anti-virus protections and intrusion detection methods to protect University Data.

1. Immediately upon becoming aware of circumstances that could have resulted in unauthorized access to or disclosure or use of University Data, Contractor will notify Mason, fully investigate the incident, and cooperate fully with Mason's investigation of and response to and remediation of the incident. Except as otherwise required by law, Contractor will not provide notice of the incident directly to individuals who's PII was involved, regulatory agencies, or other entities, without prior written permission from Mason.
2. Mason reserves the right in its sole discretion to perform audits of Contractor, at Mason's expense, to ensure compliance with all obligations regarding University Data. Contractor shall reasonably cooperate in the performance of such audits. Contractor will make available to Mason all information necessary to demonstrate compliance with its data processing obligations. Failure to adequately protect University Data or comply with the terms of this Contract with regard to University Data may be grounds to terminate this Contract.

QQ. UNIVERSITY DATA UPON TERMINATION OR EXPIRATION: Upon termination or expiration of the Contract, Contractor will ensure that all University Data are securely returned or destroyed as directed by Mason in its sole discretion within 180 days of the request being made. Transfer to Mason or a third party designated by Mason shall occur within a reasonable period of time, and without significant interruption in service. Contractor shall ensure that such transfer/migration uses facilities and methods that are compatible with the relevant systems of Mason or its transferee, and to the extent technologically feasible, that Mason will have reasonable access to University Data during the transition. In the event that Mason requests destruction of its data, Contractor agrees to destroy all data in its possession and in the possession of any subcontractors or agents to which the Contractor might have transferred University Data. Contractor agrees to provide documentation of data destruction to the University.

Contractor will notify the University of any impending cessation of its business and any contingency plans. This includes immediate transfer of any previously escrowed assets and University Data and providing Mason access to Contractor's facilities to remove and destroy Mason-owned assets and University Data. Contractor shall implement its exit plan and take all necessary actions to ensure a smooth transition of service with minimal disruption to Mason. Contractor will also provide a full inventory and configuration of servers, routers, other hardware, and software involved in service delivery along with supporting documentation, indicating which if any of these are owned by or dedicated to Mason. Contractor will work closely with its successor to ensure a successful transition to the new equipment, with minimal downtime and effect on Mason, all such work to be coordinated and performed in advance of the formal, final transition date.

RR. UNIVERSITY REVIEW/APPROVAL: All goods, services, products, design, etc. produced by the Contractor for or on behalf of Mason are subject to Mason's review and approval.

SS. WAIVER: The failure of a party to enforce any provision in this Contract shall not be deemed to be a waiver of such right.

SUBJECT: Round 1 Negotiations, RFP GMU-1821-22, Program Design & Event Management Services

Dear Ms. Bigelow:

We have reached the point in the evaluation process where we are ready to start negotiations/clarifications as provided for in Section XIV, B of the subject RFP. Therefore, we would appreciate your response to the following:

1. Mason is an educational institution and entity of the Commonwealth of Virginia. As such, we are obligated to ensure that all pricing and contractual elements meet our institution's needs. Can GCN provide a reduced flat project rate?

[Yes – we will provide a flat project rate.](#)

2. Provide your intended payment schedule. Will invoices be submitted monthly, upon completion of each phase, or after all services rendered? All invoices are paid Net 30 after services rendered and must reference a purchase order number to be considered valid. Invoices should be emailed directly to acctpay@gmu.edu with a copy to the department to avoid any payment delays.

[We will split the project fee into three separate payments which we will invoice at the completion of different phases of the project. We have a project plan with deliverables and should be able to put the date in a contract ahead of time if needed.](#)

3. Confirm GCN understands all event expenses must be invoiced separately from any Mason issued PO. Event expenses are not included with any contract resulting from this RFP and should be coordinated directly with department contact.

[We confirm that event expenses will be approved through our Mason contract and invoiced separately.](#)

4. Confirm GCN will provide support with sponsors' needs pre, during, and post-event and will assist with closing funding from sponsors.

[GCN will provide support for sponsors needs prior to, during and after the event, and will participate in meetings as requested by the Mason team and development staff.](#)

5. Confirm GCN will provide help by leveraging their personal investor network to increase the attendance of judges at the event.

GCN will provide outreach for judges, venture and angel investor attendees for the event.

6. Confirm GCN will provide help by leveraging their personal speaker network to fill panel and other speaking slots.

GCN will leverage our network for speakers, keynotes and panel session participants.

7. Do you agree to sign Mason's Standard Contract (Attachments B - Sample Contract), if awarded a contract? Any exceptions to Mason's Standard Contract must be noted in your negotiation response or they will not be considered.

Please advise if you have any questions or need clarification before responding.

Your email response on or before October 7, 2022 will be greatly appreciated.

- II. **PURCHASING MANUAL/GOVERNING RULES:** This solicitation and any resulting contract shall be subject to the provisions of the Commonwealth of Virginia *Purchasing Manual for Institutions of Higher Education and their Vendor's*, and any revisions thereto, and the *Governing Rules*, which are hereby incorporated into this contract in their entirety. Any exceptions to our standard contract and General Terms and Conditions should be denoted in your RFP response. Other documents may be incorporated into the final contract, either by way of attachment or by reference, but in all cases this contract document and Mason's General Terms and Conditions shall jointly take precedence over all other documents and will govern the terms and conditions of the contract.

- B. An agreement to indemnify, defend or hold harmless any entity.

As a separate contractual relationship, the participating entity will place its own orders directly with the Contractor(s) and shall fully and independently administer its use of the contract(s) to include contractual disputes, invoicing and payments without direct administration from the University. No modification of this contract or execution of a separate agreement is required to participate; however, the participating entity and the Contractor may modify the terms and conditions of the contract to accommodate specific governing laws, regulations, policies, and business goals required by the participating entity. This paragraph applies to, but is not limited to, subcontractor(s) who process University Data.
- NN. SWaM CERTIFICATION: Contractor agrees to fully support the Commonwealth of Virginia and Mason's efforts related to SWaM goals. Upon contract execution, Contractor (as determined by Mason and the Virginia Department of Small Business and Supplier Diversity) shall submit all required documents necessary to achieve SWaM certification to the Department of Small Business and Supplier Diversity within 90 days. If Contractor is currently SWaM certified, Contractor agrees to maintain their certification for the duration of the Contract and shall submit all required renewal documentation at least 30 days prior to existing SWaM expiration at <https://www.sbsd.virginia.gov/>.

OO. UNIVERSITY DATA: University Data includes all Mason owned, controlled, or collected PII and any other information that is not intentionally made available by Mason on public websites, including but not limited to business, administrative and financial data, intellectual property, and patient, student and personnel data. Contractor agrees to the following regarding University Data it may collect or process as part of this Contract:

1. Contractor will use University Data only for the purpose of fulfilling its duties under the Contract and will not share such data with or disclose it to any third party without the prior written consent of Mason, except as required by the Contract or as otherwise required by law. University Data will only be processed by Contractor to the extent necessary to fulfill its responsibilities under the Contract or as otherwise directed by Mason.
2. University Data, including any back-ups, will not be accessed, stored, or transferred outside the United States without prior written consent from Mason. Contractor will provide access to University Data only to its employees and subcontractors who need to access the data to fulfill Contractor's obligations under the Contract. Contractor will ensure that employees who perform work under the Contract have read, understood, and received appropriate instruction as to how to comply with the data protection provisions of the Contract and to maintain the confidentiality of the University Data.
3. The parties agree that as between them, all rights including all intellectual property rights in and to University Data shall remain the exclusive property of Mason, and Contractor has a limited, nonexclusive license to use the University Data as provided in the Contract solely for the purpose of performing its obligations under the Contract. The Contract does not give a party any rights, implied or otherwise, to the other party's data, content, or intellectual property, except as expressly stated in the Contract.
4. Contractor will take reasonable measures, including audit trails, to protect University Data against deterioration or degradation of data quality and authenticity. Contractor shall be responsible for ensuring that University Data, per the Virginia Public Records Act, is preserved, maintained, and accessible throughout their lifecycle, including converting and migrating electronic data as often as necessary so that information is not lost due to hardware, software, or media obsolescence or deterioration.
5. Contractor shall notify Mason within three business days if it receives a request from an individual under any applicable law regarding PII about the individual, including but not limited to a request to view, access, delete, correct, or amend the information. Contractor shall not take any action regarding such a request except as directed by Mason.
6. If Contractor will have access to University Data that includes "education records" as defined under the Family Educational Rights and Privacy Act (FERPA), the Contractor acknowledges that for the purposes of the Contract it will be designated as a "school official" with "legitimate educational interests" in the University education records, as those terms have been defined under FERPA and its implementing regulations, and the Contractor agrees to abide by the limitations and requirements imposed on school officials. Contractor will use the education records only for the purpose of fulfilling its duties under the Contract for Mason's and its end user's benefit, and will not share such data with or disclose it to any third party except as provided for in the Contract, required by law, or authorized in writing by the University.
7. Mason may require that Mason and Contractor complete a Data Processing Addendum ("DPA"). If a DPA is completed, Contractor agrees that the information in the DPA is accurate. Contractor will only collect or process University Data that is identified in the DPA and will only handle that data (e.g., type of processing activities, storage, security, disclosure) as described in the DPA. If Contractor intends to do anything regarding University Data that is not reflected in the DPA, Contractor must request an amendment to the DPA and may not take the intended action until the amendment is approved and documented by Mason.

PP. UNIVERSITY DATA SECURITY: Data security is of paramount concern to Mason. Contractor will utilize, store and process University Data in a secure environment in accordance with commercial best practices, including appropriate administrative, physical, and technical safeguards, to secure such data from unauthorized access, disclosure, alteration, and use. Such measures will be no less protective than those used to secure Contractor's own data of a similar type, and in no event less than reasonable in view of the type and nature of

the data involved. At a minimum, Contractor shall use industry-standard and up-to-date security tools and technologies such as anti-virus protections and intrusion detection methods to protect University Data.

- 1. Immediately upon becoming aware of circumstances that could have resulted in unauthorized access to or disclosure or use of University Data, Contractor will notify Mason, fully investigate the incident, and cooperate fully with Mason’s investigation of and response to and remediation of the incident. Except as otherwise required by law, Contractor will not provide notice of the incident directly to individuals who’s PII was involved, regulatory agencies, or other entities, without prior written permission from Mason.
- 2. Mason reserves the right in its sole discretion to perform audits of Contactor, at Mason’s expense, to ensure compliance with all obligations regarding University Data. Contractor shall reasonably cooperate in the performance of such audits. Contractor will make available to Mason all information necessary to demonstrate compliance with its data processing obligations. Failure to adequately protect University Data or comply with the terms of this Contract with regard to University Data may be grounds to terminate this Contract.

QQ. UNIVERSITY DATA UPON TERMINATION OR EXPIRATION: Upon termination or expiration of the Contract, Contractor will ensure that all University Data are securely returned or destroyed as directed by Mason in its sole discretion within 180 days of the request being made. Transfer to Mason or a third party designated by Mason shall occur within a reasonable period of time, and without significant interruption in service. Contractor shall ensure that such transfer/migration uses facilities and methods that are compatible with the relevant systems of Mason or its transferee, and to the extent technologically feasible, that Mason will have reasonable access to University Data during the transition. In the event that Mason requests destruction of its data, Contractor agrees to destroy all data in its possession and in the possession of any subcontractors or agents to which the Contractor might have transferred University Data. Contractor agrees to provide documentation of data destruction to the University.

Contractor will notify the University of any impending cessation of its business and any contingency plans. This includes immediate transfer of any previously escrowed assets and University Data and providing Mason access to Contractor’s facilities to remove and destroy Mason-owned assets and University Data. Contractor shall implement its exit plan and take all necessary actions to ensure a smooth transition of service with minimal disruption to Mason. Contractor will also provide a full inventory and configuration of servers, routers, other hardware, and software involved in service delivery along with supporting documentation, indicating which if any of these are owned by or dedicated to Mason. Contractor will work closely with its successor to ensure a successful transition to the new equipment, with minimal downtime and effect on Mason, all such work to be coordinated and performed in advance of the formal, final transition date.

RR. UNIVERSITY REVIEW/APPROVAL: All goods, services, products, design, etc. produced by the Contractor for or on behalf of Mason are subject to Mason’s review and approval.

3. Specific Methodology & Timeline

The overarching aim for this project is to provide an effective platform for George Mason University to launch the creation of a public/private innovation community that engages GMU with other educational institutions, municipalities, and policy makers as well as corporations and industry thought leaders. In this project we will bring together a strong pipeline of educational opportunities, engaging discussions, and potential keynotes for its programmatic sections as well as relevant companies, judges, and attendees for its company and student pitch competitions. GCN will work alongside the GMU internal team and assets to coordinate the website, marketing, social media, PR, logistics, development, signage/printing, logistics, and vendors.

In order to achieve this goal, GCN will take responsibility for the project management to:

- Develop an efficient approach for GMU to build and efficiently execute the 2.5 day event
- Work with the GMU team to determine the calendar milestones and program deliverables
- Create a project plan/calendar with responsibilities, dates, and deliverables
- Select menus, oversee all vendors, manage program budget and volunteer + paid staff.
- Work with GMU team to identify and secure speakers consistent with investor interests.
- Ensure that the key messaging highlights key domains consistent with Mason priorities.
- Create the infrastructure for the student and company competition outreach, judging and selection
- Act as the information nexus for applicants, competitors, vendors, and judges for the competitions
- Meet with Mason team and funders to deliver sponsor packages and help close sponsorships.
- Manage pre- and onsite registration, coordinate with GMU on all VIP access and needs.

AGENDA/PROGRAM CREATION – GCN will set a tentative agenda for onsite portion of event and work with partners to identify and create outreach to potential keynotes and panel sessions. After the initial speaker outreach from the closest contact, GCN will facilitate pre-event communications and coordinate with the event

manager who handles onsite travel, registration, and hotel. GCN will coordinate with GMU around thank you gifts and letters.

STARTUP ENGAGEMENT – Recruitment/engagement of a geographically, racially, and ethnically diverse set of Mid-Atlantic startups to apply and participate in the company competition. Create the application process with the event manager, market through partners and direct outreach, and work with SBDC on coaching/prepping the companies and engage them onsite at the event.

STUDENT ENGAGEMENT – Recruitment of a geographically, racially, and ethnically diverse set of students to apply and participate in the Accelerate Student competition. Create the application process, market through direct outreach to a database of schools across the DMV, and work with Mason/key companies on coaching/prepping the students and engaging them onsite at the event.

INVESTOR ENGAGEMENT – Recruitment of a geographically, racially, and ethnically diverse set of angel, venture, and PE investors to judge the early phases and attend the Accelerate company competition and event. Market through direct outreach and partner engagement to a personal database of investors contacts from across North America, creating onsite peer to peer networking opportunities, and engaging them onsite at the event.

PR/MARKETING – GCN will work with GMU marketing and an external PR team to ensure uniform messaging, coordinated outreach to the varied constituents and a consistent flow of information to the relevant audiences. We will work with the team on the different entrepreneur and investor channels as well as journalists that may have interest in the area. GCN will outsource the management of the event website and evaluation/judging software for the student and company competitions.

SPONSORSHIP – In partnership with GMU development and the event manager, GCN will coordinate and manage sponsorship opportunities. GCN will refine sponsorship parameters and (if desired) create a target list of opportunities. When sponsorships are confirmed, we will work with the event manager as the conduit to the promotion arm, coordinating with the GMU marketing/PR team. We will ensure that we have their ads, logos and any other relevant information for their onsite event visibility (booths, exhibits). GCN will then coordinate this with GMU, the onsite event manager (who will take care of registration, ribbons, etc.) We will also coordinate with GMU to manage thank you notes from the relevant parties.

FACILITY/CATERING – After the full needs are determined, GCN will work with GMU to research facilities, disseminate RFPs, and negotiate contracts. Should GMU have out of town speakers, GCN will negotiate judge/participant room rates and blocks with a designated hotel. We will also coordinate with the GMU event staff to take care of contracting catering – menus completed, site visits, food tastings.

VENDORS – GCN will create RFPs for AV, event managers, musicians, photographers and transport. We will help to choose vendors, negotiate contracts, and pass to GMU to execute and pay the contracts.

ATTENDEE MATERIALS – GCN will work with GMU to produce an attendee programs, registration materials, banners, signage and onsite visuals to ensure consistency. Local signage production will be the responsibility of the GMU team. GCN will work with both the marketing team and the event manager to coordinate custom event pieces (name badges, checks, awards, and judge/speaker gifts.)

VOLUNTEERS – GCN will work with GMU to solicit and train volunteers. We will put together the schedule, do a pre-event training call, create volunteer packets, and disseminate thank you letters.
