Subject: Negotiation Letter dated July 5, 2023

Dear Sara,

In connection with the above subject and the 3 points from your letter, please note our response as follows:

1. We would not be in a position for a reduced discount but have provided additional incentives in #3 below for a Rebate based upon Sales Volume.
2. Currently our net unit pricing is shown on each invoice. We do have a request into our IT to show at the regular price and then a line reflecting the 10% discount. I don't have a known date when this change will be implemented. (It's been on the list for a bit.) One way from an 'auditing' standpoint to know the discount has been applied is the net price will be shown with 3 decimal places. For instance, if the regular unit price is \$1.99. The price reflected on the invoice will be \$1.791 (10% off \$1.99). Although not our first preference either, it does provide a way to show that the discount was applied.
3. We would be comfortable with the following Rebate Schedule:

<u>Sales Volume</u>	<u>Rebate %</u>
\$0-\$50,000	0%
\$50,000-\$100,000	1.0%
\$100,000-\$150,000	1.5%
\$150,000-\$200,000	2.0%

Thank you for this opportunity to provide this additional information. Please let us know if you have any questions or would like to jump on a call to discuss further. We would love to continue the relationship with GMU.

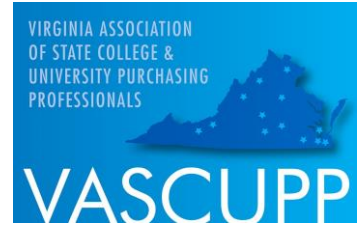

Sincerely,

As a precondition to its acceptance, George Mason University may, in its sole discretion, request that the bidder withdraw or modify nonresponsive portions of a bid which do not affect quality, quantity, price, or delivery. NOTE: Each individual solicitation will contain specific instructions regarding what documents, or portions thereof, need to be submitted with the [bid] or [proposal].
- I. OBLIGATION OF OFFEROR: It is the responsibility of each offeror to inquire about and clarify any requirements of this solicitation that are not understood. Mason will not be bound by oral explanations as to the meaning of specifications or language contained in this solicitation. Therefore, all inquiries must be in writing and submitted as instructed on page 1 of this solicitation. By submitting a proposal, the offeror covenants and agrees that they have satisfied themselves, from their own investigation of the conditions to be met, that they fully understand their obligation and that they will not make any claim for, or have right to cancellation or relief from the resulting contract because of any misunderstanding or lack of information.
- J. QUALIFICATIONS OF (BIDDERS/OFFERORS): George Mason University may make such reasonable investigations as deemed proper and necessary to determine the ability of the (bidder/offeror) to perform the services/furnish the goods and the (bidder/offeror) shall furnish to George Mason University all such information and data for this purpose as may be requested. George Mason University reserves the right to inspect (bidder's/offeror's) physical facilities prior to award to satisfy questions regarding the (bidder's/offeror's) capabilities. George Mason University further reserves the right to reject any (bid/proposal) if the evidence submitted by, or investigations of, such (bidder/offeror) fails to satisfy George Mason University that such (bidder/offeror) is properly qualified to carry out the obligations of the contract and to provide the services and/or furnish the goods contemplated therein.

- K. **RFP DEBRIEFING:** In accordance with §49 of the *Governing Rules* Mason is not required to furnish a statement of the reasons why a particular proposal was not deemed to be the most advantageous. Any article which the public body, in its sole discretion, determines to be the equal of that specified, considering quality, workmanship, economy of operation, and suitability for the purpose intended, shall be accepted. The (bidder/offeror) is responsible to clearly and specifically identify the product being offered and to provide sufficient descriptive literature, catalog cuts and technical detail to enable George Mason University to determine if the product offered meets the requirements of the solicitation. This is required even if offering the exact brand, make or manufacturer specified. Normally in competitive sealed bidding only the information furnished with the bid will be considered in the evaluation. Failure to furnish adequate data for evaluation purposes may result in declaring a bid nonresponsive. University Data will only be processed by Contractor to the extent necessary to fulfill its responsibilities under the Contract or as otherwise directed by Mason.

 3. The parties agree that as between them, all rights including all intellectual property rights in and to University Data shall remain the exclusive property of Mason, and Contractor has a limited, nonexclusive license to use the University Data as provided in the Contract solely for the purpose of performing its obligations under the Contract. The Contract does not give a party any rights, implied or otherwise, to the other party's data, content, or intellectual property, except as expressly stated in the Contract.
 4. Contractor will take reasonable measures, including audit trails, to protect University Data against deterioration or degradation of data quality and authenticity. Contractor shall be responsible for ensuring that University Data, per the Virginia Public Records Act, is preserved, maintained, and accessible throughout their lifecycle, including converting and migrating electronic data as often as necessary so that information is not lost due to hardware, software, or media obsolescence or deterioration.

Contractor will only collect or process University Data that is identified in the DPA and will only handle that data (e.g., type of processing activities, storage, security, disclosure) as described in the DPA. If Contractor intends to do anything regarding University Data that is not reflected in the DPA, Contractor must request an amendment to the DPA and may not take the intended action until the amendment is approved and documented by Mason.

SS. UNIVERSITY DATA SECURITY: Data security is of paramount concern to Mason. Contractor will utilize, store and process University Data in a secure environment in accordance with commercial best practices, including appropriate administrative, physical, and technical safeguards, to secure such data from unauthorized access, disclosure, alteration, and use. Such measures will be no less protective than those used to secure Contractor’s own data of a similar type, and in no event less than reasonable in view of the type and nature of the data involved. At a minimum, Contractor shall use industry-standard and up-to-date security tools and technologies such as anti-virus protections and intrusion detection methods to protect University Data.

Contractor shall reasonably cooperate in the performance of such audits. Contractor will make available to Mason all information necessary to demonstrate compliance with its data processing obligations. Failure to adequately protect University Data or comply with the terms of this Contract with regard to University Data may be grounds to terminate this Contract.

TT. UNIVERSITY DATA UPON TERMINATION OR EXPIRATION: Upon termination or expiration of the Contract, Contractor will ensure that all University Data are securely returned or destroyed as directed by Mason in its sole discretion within 180 days of the request being made. Transfer to Mason or a third party designated by Mason shall occur within a reasonable period of time, and without significant interruption in service. Contractor shall ensure that such transfer/migration uses facilities and methods that are compatible with the relevant systems of Mason or its transferee, and to the extent technologically feasible, that Mason will have reasonable access to University Data during the transition. In the event that Mason requests destruction of its data, Contractor agrees to destroy all data in its possession and in the possession of any subcontractors or agents to which the Contractor might have transferred University Data. Contractor agrees to provide documentation of data destruction to the University.

Contractor will notify the University of any impending cessation of its business and any contingency plans. This includes immediate transfer of any previously escrowed assets and University Data and providing Mason access to Contractor’s facilities to remove and destroy Mason-owned assets and University Data. Contractor shall implement its exit plan and take all necessary actions to ensure a smooth transition of service with minimal disruption to Mason. Contractor will also provide a full inventory and configuration of servers, routers, other hardware, and software involved in service delivery along with supporting documentation, indicating which if any of these are owned by or dedicated to Mason. Contractor will work closely with its successor to ensure a successful transition to the new equipment, with minimal downtime and effect on Mason, all such work to be coordinated and performed in advance of the formal, final transition date.

- UU. UNIVERSITY REVIEW/APPROVAL: All goods, services, products, design, etc. produced by the Contractor for or on behalf of Mason are subject to Mason’s review and approval.
- VV. WAIVER: The failure of a party to enforce any provision in this Contract shall not be deemed to be a waiver of such right.

We have a *dedicated, proven* team with 10+ years of customer service experience to support and control ***your brand*** on quality products to ***your standards***. We are committed to being socially responsible for the products we offer and have developed our Better Choices™ line of products for ease in selecting those which are more sustainable. More information follows on page 14 which speaks to many areas that we are leading and affecting change throughout our entire industry.

Statement of Needs

As stated in the RFP, "Mason requests vendors offer a wide variety of promotional items, apparel, and embroidery services."

A. Contractor must meet the following minimum requirements.

1. Provide the link to your complete electronic catalog containing all available promotional items being offered. Include published price list or instructions on how to access published price list electronically. **Our electronic catalog is our proprietary site of www.4imprint.com. This is now the #1 searched site for promotional items in the US. All of our published pricing is reflected on the website. Simply add the quantity of the item you desire along with imprinting information and a published price will return.**
2. Describe ability to customize electronic catalog for Mason. **As is more fully explained on page 15, within our website, you can sort by several different criteria to help find just the right item that you are looking for.**
3. Describe ability to provide a local sales representative for Mason. **We do not have local sales representatives. We can provide a dedicated customer service rep for GMU if you would like that along with dedicated back-up should that rep be out. Our hours of operation are 7 am to 6 pm M-F.**
4. It is a requirement of all vendors providing goods and/or merchandise bearing the trademarks/names or logos of George Mason University to register and become licensed and maintain a license through CLC (The Collegiate Licensing Company). Please note the registration and licensing fees are the sole responsibility of the vendor. The licensee requirements include, but may not be limited to, submitting all artwork electronically through the Brand Manager 360 platform for approval and maintaining product liability insurance, Licensees are also required to report and pay royalties on product sold to Mason that will be resold or used for fundraising purposes. Additionally, licensees that hold a "Standard License" should expect to report and pay royalties on all sales. To "Get Licensed" visit clc.com. To be considered for orders that include Mason's trademarks/names or logos, the vendor must first be licensed. **We have been licensed with George Mason University since 2009 and have been working with CLC as a licensee since 2005. We are very familiar with Brand Manager 360 and reporting all sales.**
5. Vendors must be able to adhere to the brand standards of the University as shared on trademarks.gmu.edu. **Yes, we are very familiar with your Brand Standards as a licensee since 2009 and your sales history with 4imprint.**

- A. Additional questions to address in your proposal;
1. Describe your experience in working with various departments at educational institutions similar to Mason. Include method for collaboration for individual orders. **4imprint specializes in working with the internal departments at the over 750 colleges and universities in which we are licensed. We have a dedicated Education team who specializes in knowing your brand standards along with the university markets. They are some of our most experienced customer service reps working with your licensing departments and CLC in obtaining approvals for artwork and products prior to production.**
 2. Describe your plan for providing pre-production samples of promotional items with logo. **When time permits and especially with larger orders, we highly recommend and encourage a pre-production sample. We also offer Free product samples.**
 3. Describe your timeframe for providing adequate sample items, material, or color swatches. **Most of our Free Samples will ship within 24 hours of your request, if you need them to be sent next day air, we'll do so at our expense. Samples for pre-production proofs may take 3-7 business days depending upon the item and level of complexity in the artwork.**
 4. Specify your typical turnaround time for delivery (standard, rush, etc.) of the promotional items being offered. **Typical turnaround time is for most orders to ship in 5-7 business days after approvals from licensing. We also have over 3,900 items available to ship in 24 hours after those approvals. This 24-hour service is normally \$40, but if selected, we would waive this charge for GMU.**
 5. Describe your ability to provide semi-annual reports showing list prices and prices paid which will reflect the cost savings to Mason. **We absolutely can provide this to you and would recommend doing so quarterly versus semi-annually.**
 6. Describe your return policy and associated costs. As part of our "Certain Satisfaction", we offer a 100% customer satisfaction guarantee. **Should you not be completely satisfied with your order, we will rerun it, credit your account, or refund your money. There is no cost to return orders under this policy.**
 7. Describe your quality control process. **We work with a select group of suppliers with whom we have a long-standing and strong relationship. These relationships are more than transactional but are also very strategic for the benefit of our customers. In most cases, we are their #1 or #2 customer. They support our guarantees of 100% customer satisfaction as well as on-time shipment or your order will be free. Our orders are provided to them electronically via a secure portal along with the corresponding artwork. We employ over 85 graphic artists as well who provide the "communication" between our customers and the supplier's production ability which adds to the quality control process and elimination of potential errors.**

8. Describe any and all third-party socially and environmentally sustainable sourcing and manufacturing certifications maintained within your supply chain for product offerings (i.e., B Corp, Cradle to Cradle (C2C), Fair Trade, Global Organic Textile Standard (GOTS), Fair Labor, WRAP Certified, Sedex, Verite, Blue Angel, Green Screen, Yess, bluesign®, Better Cotton Initiative (BCI), OEKO-TEX® STeP, 1% for the Planet, etc.). Explain any price differential. i.e., any cost savings, increase cost, environmental impact, product circularity, percentage of goods that are certified, etc. **4imprint merchandising and compliance teams work closely with our approved suppliers and validate a variety of different social and sustainability certifications in the supply chain. The list, while not exhaustive, covers the primary areas we are focusing on at this time. One thing to be aware of in the promotional space is that there are some certifications and standards that are for product only and not a “decorated” product so we are careful to market appropriately, if we can, to adhere to the standard or certification scheme.**
- **B-Corp companies and their products are verified and identified in Better Choices™**
 - **GOTS (Global Organic Textile Standard) & OCS (Organic Content Standard) are validated with certificate before we market items on our website.**
 - **US Cotton Trust Protocol: We are aware of and have identified companies/products that are members of the US Cotton Trust Protocol.**
 - **WRAP Certified audited factories: There are many factories, primarily in the apparel category, that are WRAP certified factories.**
 - **SEDEX members: There are many factories that are SEDEX members and conduct regular SMETA audits.**
 - **Bluesign: There are factories and products that are Bluesign in our supply chain and it is our initiative at some point to identify those on our website in the future.**
 - **OEKO-TEX Standard 100/Passport: There are products and factories that are certified in our supply chain and we are actively working towards identifying those appropriately.**
 - **1% for the Planet: We have some suppliers/products that are participating for 1% for the planet, but it does not apply to decorated product at this time.**
 - **FSC (Forestry Stewardship Council): 4imprint is a retail licensee of FSC and can market products that are FSC certified (FSC Mix, FSC 100% & FSC Recycled). The entire supply chain must be certified by FSC to do this.**
 - **SFI (Sustainable Forestry Initiative): 4imprint is a licensee with SFI and markets products that are SFI certified product on our website.**
 - **Fair Labor Association accredited suppliers: 4imprint has been an affiliate of the FLA since 2005 and we identify companies along with their products on our website that are a fully accredited FLA company.**
 - **Carbon Neutral products: We have a small selection of products that are Cradle to Grave carbon neutral certified.**

- **UL listed technology products:** All 4imprint products that plug into a wall outlet and power banks are UL listed on the finished product. We only market UL certified products in those product categories.
 - **Bluetooth Certification:** We identified and validated all wireless technology products that are Bluetooth certified by the manufacturers.
 - **ANSI Safety Standards:** We have identified manufacturers that have ANSI certified products for Hi-Vis apparel, eyewear & headwear.
9. Describe your ability to categorize and label sustainably certified products with their relevant certification logos, categorize identified products in special eco-/ green products page(s), and when possible, suggest a more eco- product versus a similar conventional product, as well as give preference to sustainable items in product searches. Eco- or green can be used but certified products should be identified as such, and the sustainable features should be described in product descriptions. Sustainable products shall be shown preference in product catalogs and eCommerce site(s) through filters, encouragement to buy better / go green, product placement, and other methods. **During 2022, 4imprint launched our redesigned and easy to navigate Better Choices™ line of products. A direct link to them (available on our home page) is available [here](#). From this page our customers have access to thousands of products with *Better Materials*, *Better Workplaces*, or carry *Additional Standards & Certifications*. Our internal compliance team has vetted each of these products in order to meet these standards. Also, when looking at an individual product, we'll let you know if you come across one of our Better Choices™ with a little green heart/leaf icon and then why specifically that product is among this line.**
10. Describe single-use plastics and polystyrene foam used in packaging and shipping, and explain what percentage of your packaging and shipping supplies are a) reusable, b) made of higher percentage post-consumer recycled (PCR) content, and / or are c) third-party sustainability certified (i.e., Forest Stewardship Council (FSC) certified). Explain efforts to reduce the use of single-use plastic and polystyrene foam in packaging and single-use plastic film wrap and polystyrene foam in shipping. Additionally, offerings for consolidation of deliveries to reduce packaging material used and to reduce carbon emissions from transport. **In 2021, 4imprint became a member of the Specialty Packaging Association to work with our suppliers in the efforts around sustainable packaging for our customers. We realize that this is a journey, but we have already made meaningful change in working within our supply chain, for the overall good of how promotional products are packaged and sourced responsibly. Beginning in January of 2022, we began shipping all ground deliveries of our products via UPS's carbon neutral program. We pay for carbon offsets on each of these packages in working with UPS on the related emissions from this method of transportation.**

Specific Plan (Methodology)

As a current licensed provider to the University, we would continue to provide the services, pricing, product offering, and marketing tools for the buyers on campus. We are open to working with the University in additional areas that would be mutually beneficial including:

- Meeting quarterly with sourcing and licensing whether onsite or via Teams to discuss the program and additional opportunities.
- Attending any onsite Vendor or Procurement Fairs.
- Actively promoting our Better Choices™ line of products through email announcements, social media, or other marketing means.
- Working with opportunities through your media rights partner.
- Highlight and promote our kitting services. This allows you to reach an audience for a specific message(s) which uses promotional items along with University-supplied literature in a new world of people being more remote.

We are here to support GMU and are more than happy to provide educational sessions in terms of best practices for promotional items or simple ways to quickly find items and checkout on the website.

Pricing Proposal

4imprint will offer George Mason University a 10% discount off our current published price on 4imprint.com for all non-royalty bearing orders. This discount would include items on sale and/or closeout. Buyers would be provided with a unique code (e.g., GMU10) when ordering that would be used to apply the discount. The 10% discount would extend to all set-up charges, any additional product run charges, or similar item charges. It would **not** extend to freight charges.

It should be noted that regular pricing on the 4imprint.com website is already discounted from MSRP pricing. Thus, with this proposal, we are confident that George Mason University will on average experience a discount from MSRP in the 30% range, depending upon the mix and quantity of the items ordered.

In addition, GMU will also receive these additional savings should we be selected:

- Set-up fees would only apply for the first time of an order with the same artwork on the same item. You would not pay a set-up fee for exact repeat orders.
- We will not charge you for PMS color matches...**FREE!**
- **FREE** Rush charge on our 24-hour service - a \$40 value. Over **3,900** products to select from!
- You would not pay extra for extended sizes on our apparel items; it is the same price if you are a size medium or 3XL, **unique** to 4imprint.
- For most embroidered apparel, you do not pay a set-up charge over 24 pieces on clothing and 72 pieces on headwear.

We have areas where you can save even more with our 4imprint Outlet website and our unique "steal a deal TM" program where you negotiate the price!

Pricing Schedule (BT-18JZ) Clarification

The pricing of our products online includes either a one-color screen print or embroidery (regardless of stitch count) on the product. We do not price any additional embroidery by stitch count but simply by additional locations if desired, regardless of the stitch count.

Delivery times will vary from 5-7 business days for standard quantities. Additional days are usually necessary for larger quantity needs and will vary based on seasonality. They can be faster for instance in less busy times of the year. Rush service is usually not available on quantities above 144 pieces.

Nothing was provided for the rush shipping costs as that would vary by products weight (t-shirts vs. sweatshirts or jackets), ship method and destination from production facility to GMU.

Additional Information

Diversity, Equity, and Inclusion

4imprint is an affirmative action employer. It is our policy to extend equal opportunity employment to all individuals without discrimination on the basis of race, color, religion, sex, pregnancy, citizenship, national origin, age, disability, military service, protected veteran status, genetic information, union membership, sexual orientation, gender identity, creed, ancestry, marital status, honesty testing, arrest/conviction record, or any other characteristic protected by law. 4imprint will also take steps to ensure affirmative action in the employment and advancement of qualified women, minorities, individuals with disabilities, and disabled veterans and all protected veterans.

As a federal government contractor, 4imprint is bound to the requirements of Executive Order 11246 as amended, the Rehabilitation Act of 1973 as amended, the Vietnam Era Veterans Readjustment Act of 1974 as amended, and Appendix A to Subpart A of Executive Order 13496, and all relevant rules, regulations, and orders of the Secretary of Labor. As part of our obligation to these regulations, we are required to notify all our suppliers of our commitment to Affirmative Action, which is done annually. 4imprint expects our suppliers to comply with the above-listed regulations.

Annually 4imprint submits a report to the federal government of our subcontracting goals for small businesses, with further defined goals for women-owned, veteran-owned, service-disabled veteran-owned, HubZone, and disadvantaged businesses. These goals range from 3-5% of our total subcontracting dollars for each of the 5 areas noted above. 4imprint subsequently reports our results as compared to the goals established. If selected as your Preferred Supplier, we would share such reports with you.

Sustainability

In 2017, 4imprint formed our internal S.M.A.R.T. (Sustainability. Making for A Renewable Tomorrow) committee. This group meets monthly focusing on internal initiatives for sustainability. During 2020, we began the journey towards carbon neutrality for our entire company. We measured our carbon footprint for 2019 under Scopes 1 & 2 along with understanding other applicable initiatives within Scope 3.

In October 2021, we achieved certification for being Carbon Neutral from Nation Capital Partners. See our related press release at this link <https://info.4imprint.com/press-release/carbonneutral-company/>. We are currently recertified through October 2023.

4imprint has achieved a Green Masters “Professional” designation as part of the Wisconsin Sustainability Business Council, see <https://www.wisconsinsustainability.com> for additional information.

In late 2022, we completed the construction of a 2,660 panel, 1 Megawatt Solar array at our Distribution Center. The press release can be found here <https://info.4imprint.com/press-release/2022-4imprint-sustainable-company/>.

Within our website at 4imprint.com, we have a separate section for our “Better Choices™” products. It provides products that consider ‘better materials’ in their construction; ‘better workplaces’ who have accredited standings for their labor practices along with certifications; and finally, products meeting safety and certification standards. A link can be found here <https://www.4imprint.com/info/betterchoices>.

For all products shipped via UPS Ground, we currently are utilizing their carbon neutral program in the offsetting of costs and reinvesting in environmentally responsible choices.
