RESPONSE ENCLOSED (ATTACHMENT)

SUBJECT: RFP GMU-1857-23, Promotional Items, Screen Printing and Embroidery

Dear Mr./Ms. Nick Schrank:

We have reached the point in the evaluation process where we are ready to start negotiations/clarifications as provided for in Section XIV, B of the subject RFP. Therefore, we would appreciate your response to the following:

1. Mason is an educational institution and entity of the Commonwealth of Virginia. As such, we are obligated to ensure that all pricing and contractual elements meet our institution’s needs. Can you provide a reduced discount for services?
2. Can you explain how Mason will be able to see the actual discount be applied, i.e., discount listed on invoice with list pricing and invoice cost?
3. Mason would be interested in having a tiered rebate incentive implemented, so for different tiers of sales, we would be interested in receiving a rebate. Please indicate your willingness and rebate percentage below for the following tiers.

Sales Volume	Rebate
\$0-50,000	
\$50,001 – \$100,000	
\$100,001- \$200,000	
\$200,001 and over	

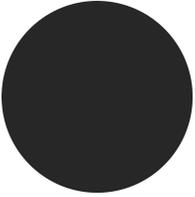

Please advise if you have any questions or need clarification before responding.

Regards,

Sara Siddall

RESPONSE: GMU-1857-23

NEGOTIATION:

1. Mason is an educational institution and entity of the Commonwealth of Virginia. As such, we are obligated to ensure that all pricing and contractual elements meet our institution's needs. Can you provide a reduced discount for services?

Absolutely; discounts have been applied to all requested services in the initial RFP as well.

2. Can you explain how Mason will be able to see the actual discount be applied, i.e., discount listed on invoice with list pricing and invoice cost?

We will provide discount on invoice for viewing with discount applied to each line-item(s) and/or to the invoice as a whole.

3. Mason would be interested in having a tiered rebate incentive implemented, so for different tiers of sales, we would be interested in receiving a rebate. Please indicate your willingness and rebate percentage below for the following tiers.

ATHLETIC UNION INC. is willing to offer a very aggressive tiered rebate incentive program.

So as to provide a bit deeper context and understanding of our company, we are a small, woman-owned, family business. It is our desire to provide a sustainable and live-able wage for our family members/employees; we combine as many of our personal and business resources as possible; this helps us focus on eliminating all unnecessary expenses and gifts us the ability to maintain the most efficient/mutually beneficial relationship with George Mason University.

From our initial executive summary statement: The Company will produce [...] consolidated brand development packages [...] under one design/production house with the expectation that this will allow the University to build directly, eliminating the need to go through multiple vendors in acquiring unique design concepts and specialized product application methods.

ATHLETIC UNION INC. is fully capable of total sole-source provision in all forms of this RFP and therefore requests that a collaboration/compromise be struck.

Offer/Request: May sole-source access be granted and then in-turn an aggressive tiered rebate system be implemented?

This would be the most fiscally responsible pathway to consider.

As a precondition to its acceptance, George Mason University may, in its sole discretion, request that the bidder withdraw or modify nonresponsive portions of a bid which do not affect quality, quantity, price, or delivery. NOTE: Each individual solicitation will contain specific instructions regarding what documents, or portions thereof, need to be submitted with the [bid] or [proposal].
- I. OBLIGATION OF OFFEROR: It is the responsibility of each offeror to inquire about and clarify any requirements of this solicitation that are not understood. Therefore, all inquiries must be in writing and submitted as instructed on page 1 of this solicitation. By submitting a proposal, the offeror covenants and agrees that they have satisfied themselves, from their own investigation of the conditions to be met, that they fully understand their obligation and that they will not make any claim for, or have right to cancellation or relief from the resulting contract because of any misunderstanding or lack of information.

George Mason University reserves the right to inspect (bidder's/offeror's) physical facilities prior to award to satisfy questions regarding the (bidder's/offeror's) capabilities. George Mason University further reserves the right to reject any (bid/proposal) if the evidence submitted by, or investigations of, such (bidder/offeror) fails to satisfy George Mason University that such (bidder/offeror) is properly qualified to carry out the obligations of the contract and to provide the services and/or furnish the goods contemplated therein.

- K. **RFP DEBRIEFING:** In accordance with §49 of the *Governing Rules* Mason is not required to furnish a statement of the reasons why a particular proposal was not deemed to be the most advantageous. The (bidder/offeror) is responsible to clearly and specifically identify the product being offered and to provide sufficient descriptive literature, catalog cuts and technical detail to enable George Mason University to determine if the product offered meets the requirements of the solicitation. This is required even if offering the exact brand, make or manufacturer specified. Normally in competitive sealed bidding only the information furnished with the bid will be considered in the evaluation. Failure to furnish adequate data for evaluation purposes may result in declaring a bid nonresponsive. However, written notice of the Contractor's intention to file a claim shall be given at the time of the occurrence or beginning of the work upon which the claim is based. Sustainable products shall be shown preference in product catalogs and eCommerce site(s) through filters, encouragement to buy better / go green, product placement, and other methods.
- RR. UNIVERSITY DATA: University Data includes all Mason owned, controlled, or collected PII and any other information that is not intentionally made available by Mason on public websites, including but not limited to business, administrative and financial data, intellectual property, and patient, student and personnel data. Contractor agrees to the following regarding University Data it may collect or process as part of this Contract:
1. Contractor will use University Data only for the purpose of fulfilling its duties under the Contract and will not share such data with or disclose it to any third party without the prior written consent of Mason, except as required by the Contract or as otherwise required by law. University Data will only be processed by Contractor to the extent necessary to fulfill its responsibilities under the Contract or as otherwise directed by Mason.
 2. University Data, including any back-ups, will not be accessed, stored, or transferred outside the United States without prior written consent from Mason. Contractor will provide access to University Data only to its employees and subcontractors who need to access the data to fulfill Contractor's obligations under the Contract. Contractor will ensure that employees who perform work under the Contract have read, understood, and received appropriate instruction as to how to comply with the data protection provisions of the Contract and to maintain the confidentiality of the University Data.
 3. The parties agree that as between them, all rights including all intellectual property rights in and to University Data shall remain the exclusive property of Mason, and Contractor has a limited, nonexclusive license to use the University Data as provided in the Contract solely for the purpose of performing its obligations under the Contract. The Contract does not give a party any rights, implied or otherwise, to the other party's data, content, or intellectual property, except as expressly stated in the Contract.
 4. Contractor will take reasonable measures, including audit trails, to protect University Data against deterioration or degradation of data quality and authenticity. Contractor shall be responsible for ensuring that University Data, per the Virginia Public Records Act, is preserved, maintained, and accessible throughout their lifecycle, including converting and migrating electronic data as often as necessary so that information is not lost due to hardware, software, or media obsolescence or deterioration.
 5. Contractor shall notify Mason within three business days if it receives a request from an individual under any applicable law regarding PII about the individual, including but not limited to a request to view, access, delete, correct, or amend the information. Contractor shall not take any action regarding such a request except as directed by Mason.

6. If Contractor will have access to University Data that includes “education records” as defined under the Family Educational Rights and Privacy Act (FERPA), the Contractor acknowledges that for the purposes of the Contract it will be designated as a “school official” with “legitimate educational interests” in the University education records, as those terms have been defined under FERPA and its implementing regulations, and the Contractor agrees to abide by the limitations and requirements imposed on school officials. Contractor will use the education records only for the purpose of fulfilling its duties under the Contract for Mason’s and its end user’s benefit, and will not share such data with or disclose it to any third party except as provided for in the Contract, required by law, or authorized in writing by the University.
7. Mason may require that Mason and Contractor complete a Data Processing Addendum (“DPA”). If a DPA is completed, Contractor agrees that the information in the DPA is accurate. Contractor will only collect or process University Data that is identified in the DPA and will only handle that data (e.g., type of processing activities, storage, security, disclosure) as described in the DPA. If Contractor intends to do anything regarding University Data that is not reflected in the DPA, Contractor must request an amendment to the DPA and may not take the intended action until the amendment is approved and documented by Mason.

SS. UNIVERSITY DATA SECURITY: Data security is of paramount concern to Mason. Contractor will utilize, store and process University Data in a secure environment in accordance with commercial best practices, including appropriate administrative, physical, and technical safeguards, to secure such data from unauthorized access, disclosure, alteration, and use. Such measures will be no less protective than those used to secure Contractor’s own data of a similar type, and in no event less than reasonable in view of the type and nature of the data involved. At a minimum, Contractor shall use industry-standard and up-to-date security tools and technologies such as anti-virus protections and intrusion detection methods to protect University Data.

1. Immediately upon becoming aware of circumstances that could have resulted in unauthorized access to or disclosure or use of University Data, Contractor will notify Mason, fully investigate the incident, and cooperate fully with Mason’s investigation of and response to and remediation of the incident. Except as otherwise required by law, Contractor will not provide notice of the incident directly to individuals who’s PII was involved, regulatory agencies, or other entities, without prior written permission from Mason.
2. Mason reserves the right in its sole discretion to perform audits of Contactor, at Mason’s expense, to ensure compliance with all obligations regarding University Data. Contractor shall reasonably cooperate in the performance of such audits. Contractor will make available to Mason all information necessary to demonstrate compliance with its data processing obligations. Failure to adequately protect University Data or comply with the terms of this Contract with regard to University Data may be grounds to terminate this Contract.

TT. UNIVERSITY DATA UPON TERMINATION OR EXPIRATION: Upon termination or expiration of the Contract, Contractor will ensure that all University Data are securely returned or destroyed as directed by Mason in its sole discretion within 180 days of the request being made. Transfer to Mason or a third party designated by Mason shall occur within a reasonable period of time, and without significant interruption in service. Contractor shall ensure that such transfer/migration uses facilities and methods that are compatible with the relevant systems of Mason or its transferee, and to the extent technologically feasible, that Mason will have reasonable access to University Data during the transition. In the event that Mason requests destruction of its data, Contractor agrees to destroy all data in its possession and in the possession of any subcontractors or agents to which the Contractor might have transferred University Data. Contractor agrees to provide documentation of data destruction to the University.

Contractor will notify the University of any impending cessation of its business and any contingency plans. This includes immediate transfer of any previously escrowed assets and University Data and providing Mason access to Contractor’s facilities to remove and destroy Mason-owned assets and University Data. Contractor shall implement its exit plan and take all necessary actions to ensure a smooth transition of service with minimal disruption to Mason. Contractor will also provide a full inventory and configuration of servers, routers, other hardware, and software involved in service delivery along with supporting documentation, indicating which if any of these are owned by or dedicated to Mason. Contractor will work closely with its successor to ensure a successful transition to the new equipment, with minimal downtime and effect on Mason, all such work to be coordinated and performed in advance of the formal, final transition date.

- UU. UNIVERSITY REVIEW/APPROVAL: All goods, services, products, design, etc. produced by the Contractor for or on behalf of Mason are subject to Mason's review and approval.
- VV. WAIVER: The failure of a party to enforce any provision in this Contract shall not be deemed to be a waiver of such right.

RESPONSE TABLE OF CONTENTS:

EXECUTIVE SUMMARY: PAGE ONE

XI. STATEMENT OF NEEDS: PAGE THREE

XII. COST OF SERVICES: PAGE SIX

XIII. PROPOSAL PREPARATION [...] REQUIREMENTS: PAGE SIX

XVII. PAYMENT TERMS / METHOD OF PAYMENT: PAGE THIRTEEN

XI. STATEMENT OF NEEDS:

Mason requests vendors offer a wide variety of promotional items, apparel and embroidery services

A. Contractor must meet the following minimum requirements:

1. Provide the link to your complete electronic catalog containing all available promotional items being offered. Include published price list or instructions on how to access published price list electronically.

All custom estores, products and ancillary services can be found on our wholesale site: <https://athleticunion.company> and/or our front-facing public site: <https://athleticunion.com>

2. Describe ability to customize electronic catalog for Mason.

ATHLETIC UNION INC. will produce via made-to-order process for George Mason University - consolidated brand development packages, both digital and physical, under one design/production house with the expectation that this will allow the University to build directly, eliminating the need to go through multiple vendors in acquiring unique design concepts and specialized product application methods.

3. Describe ability to provide a local sales representative for Mason.

Currently, we are on campus for pickups (Athletics), deliveries (Main Campus) and meetings (All-Campuses) 2-3 times per week. We are a family business that is available 24/7 - Please reference Jenny Everett and Christopher Minter with Athletics for validation of 365 availability.

4. It is a requirement of all vendors providing goods and/or merchandise bearing the trademarks/names or logos of George Mason University to register and become licensed and maintain a license through CLC (The Collegiate Licensing Company). Please note the registration and licensing fees are the sole responsibility of the vendor. The licensee requirements include, but may not be limited to, submitting all artwork electronically through the Brand Manager 360 platform for approval and maintaining product liability insurance, Licensees are also required to report and pay royalties on product sold to Mason that will be resold or used for fundraising purposes. Additionally, licensees that hold a "Standard License" should expect to report and pay royalties on all sales. To "Get Licensed" visit clc.com. To be considered for orders that include Mason's trademarks/names or logos, the vendor must first be licensed.

ATHLETIC UNION INC. is currently licensed and maintaining.

5. Vendors must be able to adhere to the brand standards of the University as shared on trademarks.gmu.edu.

ATHLETIC UNION INC. currently helps to uphold the integrity of George Mason University's brand on a daily basis - both internally (on campus) and externally (Athletics) via direct participation with administration and coaches (i.e. Tony Skinn / MBB program etc.)

B. Additional question to address in your proposal:

1. Describe your experience in working with various departments at educational institutions similar to Mason. Include method for collaboration for individual orders.

ATHLETIC UNION INC. collaborates with all departments inside George Mason University as well as a majority of all departments associated with Old Dominion University, Virginia Commonwealth University, Virginia Tech, James Madison University and Radford University - this is due to our ability to operate in a cooperative manner while holding multiple VASCUPP contracts (Something we were gratefully educated to know was possible with our sponsorship in attendance of SWaMFest years ago - George Mason University's procurement team helped us understand how to navigate VASCUPP - Thank you).

2. Describe your plan for providing pre-production samples of promotional items with logo.

We typically have direct contact with all department buyers either via email, phone, text, etc. in order to operate as efficiently and quickly as possible so as to prioritize the security of deadlines. Most projects are time-sensitive and need only digital visual concepts for viewing/approval in order to head into production, but tangible samples can be provided if someone would like to touch/feel.

3. Describe your timeframe for providing adequate sample items, material, or color swatches.

Because of our close proximity to campus and our daily deliveries, 24-48 hours is standard.

4. Specify your typical turnaround time for delivery (standard, rush, etc.) of the promotional items being offered.

9-12 days for production is what we typically produce for George Mason University; this is because we work 7-days a week, so weekends help us to provide more value for those that need product sooner than later. Rush production (typically for Athletics - due to the timing of events, games, etc. 1-6 days). There is some nuance in this "RUSH" timeline as we are dependent most times on a few uncontrollable variables with teams, coaches and other vendors (i.e. Adidas w/ ICA - global supply chain).

5. Describe your ability to provide semi-annual reports showing list prices and prices paid which will reflect the cost savings to Mason.

Confirmed; can provide when requested.

6. Describe your return policy and associated costs.

Due to the nature of customization and unique design concept creation, all #ATHLETICUNION product(s) via organizational, individual and/or team transactions are not returnable, but we provide 100% satisfaction guarantee, so if there is a problem, we will fix it.

7. Describe your quality control process.

Everything at #ATHLETICUNION is vertically integrated regarding design concept creation, apparel production and order fulfillment (even delivery in our own #ATHLETICUNION vehicles). Each phase of the project is monitored by someone with direct contact to the product and/or the service provision from start to finish.

8. Describe any and all third-party socially and environmentally sustainable sourcing and manufacturing certifications maintained within your supply chain for product offerings (i.e., B Corp, Cradle to Cradle (C2C), Fair Trade, Global Organic Textile Standard (GOTS), Fair Labor, WRAP Certified, Sedex, Verite, Blue Angel, Green Screen, Yess, bluesign®, Better Cotton Initiative (BCI), OEKO-TEX® STeP, 1% for the Planet, etc.). Explain any price differential. i.e., any cost savings, increase cost, environmental impact, product circularity, percentage of goods that are certified, etc.

ATHLETIC UNION INC. is in compliance with all necessary certifications. No price differentials.

9. Describe your ability to categorize and label sustainably certified products with their relevant certification logos, categorize identified products in special eco-/green products page(s), and when possible, suggest a more eco- product versus a similar conventional product, as well as give preference to sustainable items in product searches. Eco- or green can be used but certified products should be identified as such, and the sustainable features should be described in product descriptions. Sustainable products shall be shown preference in product catalogs and eCommerce site(s) through filters, encouragement to buy better / go green, product placement, and other methods.

ATHLETIC UNION INC. provides sustainable efficiency in all aspects of the supply chain that we, ourselves, can dictate. With our vertical integration from beginning to end, we control everything that we are able to and then rely on global manufacturing partners for harvesting, milling, etc. of raw materials like cotton. Sustainable products are integrated in all aspects.

10. Describe single-use plastics and polystyrene foam used in packaging and shipping, and explain what percentage of your packaging and shipping supplies are a) reusable, b) made of higher percentage post-consumer recycled (PCR) content, and / or are c) third-party sustainability certified (i.e., Forest Stewardship Council (FSC) certified). Explain efforts to reduce the use of single-use plastic and polystyrene foam in packaging and single-use plastic film wrap and polystyrene foam in shipping. Additionally, offerings for consolidation of deliveries to reduce packaging material used and to reduce carbon emissions from transport.

ATHLETIC UNION INC. uses PCR corrugated boxes when applicable and rarely uses any other form of packaging. We consolidate our deliveries as much as possible in order to be as efficient as possible.

- a. Proposals shall be signed by an authorized representative of the Offeror. All information requested must be submitted. Failure to submit all information requested may result in your proposal being scored low.

- b. Proposals should be prepared simply and economically, providing a straightforward, concise description of capabilities to satisfy the requirement of the RFP. Emphasis should be on completeness and clarity of content.
- c. Proposals should be organized in the order in which the requirements are presented in the RFP. All pages of the proposal should be numbered. Each paragraph in the proposal should reference the paragraph number corresponding section of the RFP. It is also helpful to cite the paragraph number, sub letter and repeat the text of the requirement as it appears in the RFP. The proposal should contain a table of contents which cross references the RFP requirements. Information which the Offeror desires to present that does not fall within any of the requirement of the RFP should be inserted at the appropriate place or be attached at the end of the proposal and designated as additional material.
- d. A WORD version of this RFP will be provided upon request.
- e. Except as provided, once an award is announced, all proposals submitted in response to this RFP will be open to inspection by any citizen, or interested person, firm or corporation, in accordance with the Virginia Freedom of Information Act. The firm must also provide a separate attachment of the proposal with the trade secrets and/or proprietary information redacted. If all of these requirements are not met, then the firm's entire proposal will be available for public inspection.
- f. **IMPORTANT:** A firm may not request that its entire proposal be treated as a trade secret or proprietary information, nor may a firm request that its pricing/fees be treated as a trade secret or proprietary information, or otherwise be deemed confidential. If after given a reasonable time, the Offeror refuses to withdraw the aforementioned designation, the proposal will be rejected.

4. Specific Plan (Methodology):

Explain your specific plans for providing the proposed services outlined in the Statement of Needs including:

- a. Your approach to providing the services described herein.

ATHLETIC UNION INC. will produce via made-to-order process for George Mason University - consolidated brand development packages, both digital and physical, under one design/production house with the expectation that this will allow the University to build directly, eliminating the need to go through multiple vendors in acquiring unique design concepts and specialized product application methods.

- b. What, when and how services will be performed.

Currently, ATHLETIC UNION INC. provides daily support for all of George Mason University Athletics and Departments - as well as the other additional aforementioned State Institutions. We will continue to strengthen our skill sets through the manufacturing of our product and further focus our efforts on increased customer service across all forms of communication - prioritizing fiscal and budgetary efficiency, leaning in on our ability to navigate procurement protocols for end-users that may be bound by specific budgets, p-card limits, deadline security, etc.

c. Educational sessions offered

Anytime. Anywhere. Happy to help (Nick Schrank will be available).

5. Proposed Pricing: (Enclosed and uploaded to Bonfire as .xlsx)

Provide pricing as requested in Attachment C Pricing File.

6. In your proposal response please address the following:

- a. Are you and/or your subcontractor currently involved in litigation with any party? (NO)
- b. Please list any investigation or action from any state, local, federal or other regulatory body (OSHA, IRS, DOL, etc.) related to your firm or any subcontractor in the last three years. (NONE)
- c. Please list all lawsuits that involved your firm or any subcontractor in the last three years. (NONE)
- d. In the past ten (10) years has your firm's name changed? If so please provide a reason for the change. (YES)

During COVID, 2019-2020, we were fortunate enough to have the ability to file for S-Corp status with our business to take advantage of the tax savings, unfortunately due to force majeure - the original TAX ID number was not able to transition from Sole-Proprietor/Single-Member LLC to S-Corp, so over the course of the last three years, and the nearly nonexistent ability to communicate with the IRS during the pandemic, we have had to straddle two existing TAX ID numbers in order to function properly with eVA, our current VASCUPP contracts with each University (multiple) and of course with the Federal Government (IRS) as well as The Commonwealth of Virginia.

Finally, at the beginning of 2023 and with the new eVA procurement portal fully functional, we are now able to migrate all of our standing certifications (SWaM, etc.) and our eVA account(s) to our new TAX ID number and the official company name: ATHLETIC UNION INC.

There still persists the eventual phase out of our old EIN: 8575 (DBA: ATHLETIC UNION LLC - Linda B. DeBruhl), because this was the original sole-proprietor TAX ID and cannot transition to an S-Corp nor live beyond the life of the individual (sole-prop - Linda B. DeBruhl)

For now, and with eVA (per their request/instruction) it will be best to keep both entities open until 2024 for tax purposes at the federal level via the 1099s that go out at the end of each year.

Please let us know if you need anything further for clarification and we will be happy to provide. Vicki Nguyen and Davena Reynolds are aware of the internal update and have direct communication with Nick Schrank for any questions/concerns.

Transfer to Mason or a third party designated by Mason shall occur within a reasonable period of time, and without significant interruption in service. Contractor shall ensure that such transfer/migration uses facilities and methods that are compatible with the relevant systems of Mason or its transferee, and to the extent technologically feasible, that Mason will have reasonable access to University Data during the transition. In the event that Mason requests destruction of its data, Contractor agrees to destroy all data in its possession and in the possession of any subcontractors or agents to which the Contractor might have transferred University Data. Contractor agrees to provide documentation of data destruction to the University.

Contractor will notify the University of any impending cessation of its business and any contingency plans. This includes immediate transfer of any previously escrowed assets and University Data and providing Mason access to Contractor’s facilities to remove and destroy Mason-owned assets and University Data. Contractor shall implement its exit plan and take all necessary actions to ensure a smooth transition of service with minimal disruption to Mason. Contractor will also provide a full inventory and configuration of servers, routers, other hardware, and software involved in service delivery along with supporting documentation, indicating which if any of these are owned by or dedicated to Mason. Contractor will work closely with its successor to ensure a successful transition to the new equipment, with minimal downtime and effect on Mason, all such work to be coordinated and performed in advance of the formal, final transition date.

Section 2 - Certification

Under penalties of perjury, I certify that:

- The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and
- I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or c) the IRS has notified me that I am no longer subject to backup withholding, and
- I am a U.S. citizen or other U.S. person (defined later in general instructions), and
- The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions: You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN.
