K. CLAIMS: Contractual claims, whether for money or other relief, shall be submitted in writing no later than 60 days after final payment. However, written notice of the Contractor's intention to file a claim shall be given at the time of the occurrence or beginning of the work upon which the claim is based. SUBJECT: RFP GMU-1857-23, Promotional Items, Screen Printing and Embroidery

Dear Ms. Siddall,

Thank you for the additional questions related to this RFP. Please see our responses below.

1. We have been in contact with CLC regarding obtaining the required licensing for this contract.
2. Your letter asks about a "reduced discount." A reduced discount would indicate a lesser discount than we have already offered. However, I am going to assume that the intent was to request an *additional* discount beyond what we have already offered. Our proposal indicated we would provide a 15% discount off list prices found on our website. If you are in fact requesting a further discount we would be prepared to offer EITHER a 17% discount off list prices OR a tiered rebate program as detailed in #4 below.
3. Per your request for discount information to appear on invoices, we would be able to structure your invoices in any way that you choose. If you can let us know the specific information you would like to have included we will be happy to include that information.
4. As noted in #2 above, we would be happy to provide either an additional across the board discount OR a tiered rebate program. Please see below for the rebate amounts provided based on volume:

Sales Volume	Rebate*
\$0-\$50,000	0.5% of product amount
\$50,001-\$100,000	1% of product amount
\$100,001 - \$200,000	1.5% of product amount
\$200,001 and over	2% of product amount

*rebate would be calculated based on product cost only – not to include setup charges or shipping charges as those are billed at cost and are not subject to further discount.

Note: While we are willing to start the rebate at \$0, we would prefer a minimum volume requirement of \$5,000 in order to cover the administrative costs of implementing a rebate program.

I hope the information provided is helpful. We would be happy to discuss any elements of the proposal in more detail and look forward to the prospect of working with Mason on this contract.

Please feel free to reach out to me at your convenience. amy@campussurvivalkits.com (301) 742-5645

The (bidder/offeror) is responsible to clearly and specifically identify the product being offered and to provide sufficient descriptive literature, catalog cuts and technical detail to enable George Mason University to determine if the product offered meets the requirements of the solicitation. This is required even if offering the exact brand, make or manufacturer specified. However, written notice of the Contractor's intention to file a claim shall be given at the time of the occurrence or beginning of the work upon which the claim is based.  3. The parties agree that as between them, all rights including all intellectual property rights in and to University Data shall remain the exclusive property of Mason, and Contractor has a limited, nonexclusive license to use the University Data as provided in the Contract solely for the purpose of performing its obligations under the Contract. The Contract does not give a party any rights, implied or otherwise, to the other party's data, content, or intellectual property, except as expressly stated in the Contract.
 4. Contractor will take reasonable measures, including audit trails, to protect University Data against deterioration or degradation of data quality and authenticity. Contractor shall be responsible for ensuring that University Data, per the Virginia Public Records Act, is preserved, maintained, and accessible throughout their lifecycle, including converting and migrating electronic data as often as necessary so that information is not lost due to hardware, software, or media obsolescence or deterioration.
 5. Contractor shall notify Mason within three business days if it receives a request from an individual under any applicable law regarding PII about the individual, including but not limited to a request to view, access, delete, correct, or amend the information. Contractor shall not take any action regarding such a request except as directed by Mason.

6. If Contractor will have access to University Data that includes “education records” as defined under the Family Educational Rights and Privacy Act (FERPA), the Contractor acknowledges that for the purposes of the Contract it will be designated as a “school official” with “legitimate educational interests” in the University education records, as those terms have been defined under FERPA and its implementing regulations, and the Contractor agrees to abide by the limitations and requirements imposed on school officials. Contractor will use the education records only for the purpose of fulfilling its duties under the Contract for Mason’s and its end user’s benefit, and will not share such data with or disclose it to any third party except as provided for in the Contract, required by law, or authorized in writing by the University.
7. Mason may require that Mason and Contractor complete a Data Processing Addendum (“DPA”). If a DPA is completed, Contractor agrees that the information in the DPA is accurate. Contractor will only collect or process University Data that is identified in the DPA and will only handle that data (e.g., type of processing activities, storage, security, disclosure) as described in the DPA. If Contractor intends to do anything regarding University Data that is not reflected in the DPA, Contractor must request an amendment to the DPA and may not take the intended action until the amendment is approved and documented by Mason.

SS. UNIVERSITY DATA SECURITY: Data security is of paramount concern to Mason. Contractor will utilize, store and process University Data in a secure environment in accordance with commercial best practices, including appropriate administrative, physical, and technical safeguards, to secure such data from unauthorized access, disclosure, alteration, and use. Such measures will be no less protective than those used to secure Contractor’s own data of a similar type, and in no event less than reasonable in view of the type and nature of the data involved. At a minimum, Contractor shall use industry-standard and up-to-date security tools and technologies such as anti-virus protections and intrusion detection methods to protect University Data.

1. Except as otherwise required by law, Contractor will not provide notice of the incident directly to individuals who’s PII was involved, regulatory agencies, or other entities, without prior written permission from Mason.
2. Mason reserves the right in its sole discretion to perform audits of Contractor, at Mason’s expense, to ensure compliance with all obligations regarding University Data. Contractor shall reasonably cooperate in the performance of such audits. Contractor will make available to Mason all information necessary to demonstrate compliance with its data processing obligations. Failure to adequately protect University Data or comply with the terms of this Contract with regard to University Data may be grounds to terminate this Contract.

TT. UNIVERSITY DATA UPON TERMINATION OR EXPIRATION: Upon termination or expiration of the Contract, Contractor will ensure that all University Data are securely returned or destroyed as directed by Mason in its sole discretion within 180 days of the request being made. Transfer to Mason or a third party designated by Mason shall occur within a reasonable period of time, and without significant interruption in service. Contractor shall ensure that such transfer/migration uses facilities and methods that are compatible with the relevant systems of Mason or its transferee, and to the extent technologically feasible, that Mason will have reasonable access to University Data during the transition. In the event that Mason requests destruction of its data, Contractor agrees to destroy all data in its possession and in the possession of any subcontractors or agents to which the Contractor might have transferred University Data. Contractor agrees to provide documentation of data destruction to the University.

Contractor will notify the University of any impending cessation of its business and any contingency plans. This includes immediate transfer of any previously escrowed assets and University Data and providing Mason access to Contractor’s facilities to remove and destroy Mason-owned assets and University Data. Contractor shall implement its exit plan and take all necessary actions to ensure a smooth transition of service with minimal disruption to Mason. Contractor will also provide a full inventory and configuration of servers, routers, other hardware, and software involved in service delivery along with supporting documentation, indicating which if any of these are owned by or dedicated to Mason. Contractor will work closely with its successor to ensure a successful transition to the new equipment, with minimal downtime and effect on Mason, all such work to be coordinated and performed in advance of the formal, final transition date.

- UU. UNIVERSITY REVIEW/APPROVAL: All goods, services, products, design, etc. produced by the Contractor for or on behalf of Mason are subject to Mason’s review and approval.
- VV. WAIVER: The failure of a party to enforce any provision in this Contract shall not be deemed to be a waiver of such right.

Request For Proposals

GMU-1857-23

Promotional Items, Screen Printing and Embroidery

OFFERED BY:

www.CampusSurvivalKits.com

EXECUTIVE SUMMARY:

Campus Survival Kits, LLC, is pleased to offer this proposal to offer promotional products services to George Mason University.

Campus Survival Kits is a woman-owned small business based in Fairfax, VA – just down the road from the George Mason Fairfax Campus. We offer personalized service and great prices for all of our products and look forward to the opportunity to work with Mason.

Campus Survival Kits was created to help parents find affordable care package solutions, and that mindset has remained core to the company's mission as it has expanded its product offerings to include school supplies, promotional products, customized gifts and more. The company has worked with educational institutions at all levels – but still at its core ensures every customer receives personalized, customized service.

A1. CATALOG LINK:

Campus Survival Kits proudly offers a full range of promotional products, which can be found on our website at:

<https://cskpromos.espsite.com>

Published prices for all items are available on the site by searching for the item of your choice. However, Campus Survival Kits is pleased to offer a 15% discount to all Mason departments. The 15% discount will be off the relevant quantity price. Setup and shipping fees will receive the best available rate at the time of order.

A note about the pricing document that accompanied this proposal:

While Campus Survival Kits does have vendors that can provide embroidery services, our intent with this proposal is to bid on non-embroidery apparel and non-apparel items. Additionally, within the pricing schedule document, we are unable to provide a blanket delivery time, rush delivery time or rush charge as each item has a different value for these services. In general, promotional products items can be expected in 10-14 working days, but in many cases they can be rushed or additional savings can be

obtained with a longer lead time. This is one of the values of having a local sales rep who can help clients assess their needs and the best way to fulfill their order.

Because of the requirements of the pricing document we apologize if the responses are not clear, but we will certainly work to provide Mason with the best possible pricing for all items, ensuring all specifications are met.

A2. CUSTOM CATALOG:

Campus Survival Kits has the ability to set up a custom store for Mason users which can include various pre-approved products.

A3. LOCAL SALES REPRESENTATIVE:

Campus Survival Kits is conveniently located right in Fairfax. This contract would be managed directly by Campus Survival Kits Founder and CEO Amy Robinson. Amy takes a personal interest in each of the company's local clients and is frequently onsite for one-on-one meetings and even makes product deliveries herself when possible. The high-touch service Mason will receive from Campus Survival Kits will be unmatched by any other company.

A4-5. CLC LICENSING and BRAND STANDARDS:

Campus Survival Kits is prepared to obtain the needed registration through the Collegiate Licensing Company and will adhere to the brand standards of the University upon receipt of a contract.

B1. EXPERIENCE:

The original and core product for Campus Survival Kits is college care packages. In 2004 Founder Amy Robinson saw a gap in the marketplace for affordable care packages and decided to build her own. A business that started on her dining room table has grown to include not only care packages, but also elementary school supply kits, promotional items, custom gifts and a craft studio, all located in a 15,000 sq. ft. facility in Chantilly, VA.

Amy and her team work on a daily basis with administrators at educational facilities across the country at every level from elementary to collegiate. Campus Survival Kits has contracts with more than 30 schools in Fairfax County, along with the Montgomery County Public school system, Prince William Public school system and various departments within the Fairfax County public school system.

The company has also recently worked with Virginia State University, Virginia Department of Emergency Management and the Virginia Department of Health to provide a wide array of promotional products.

PROCESS:

Each order is handled in a step-by-step manner, from obtaining the needed specifications, to gathering logos, to proofing, production and final delivery. Amy will walk the client through each step to keep the job on track based on the needed in-hands date. There are often many manufacturers who can provide

a particular product, but the one selected will have a right combination of price and ability to fulfill the order within the needed timeframe. An important role for the promotional products team is to identify the needs of the client and find the right fit for all of the pieces.

B2-3. LOCAL SERVICE:

There are many instances where pre-production samples can be obtained and this is a key advantage to having a local company on the job! We can be available to meet with the client as needed to go over options, show samples, or to just drop in to see how we might be able to help.

B4. TURNAROUND:

There is a vast array of promotional products available from thousands of manufacturers. While many items can be delivered in 1-2 weeks, some have a shorter window and others can take longer. Often, if an order is not urgent, significant savings can be obtained by shipping from overseas. This is where a knowledgeable partner will be critical in order to help identify the best options based on the client's needs.

B5. REPORTING:

Campus Survival Kits is happy to provide periodic reporting based on the needs of the University. We can provide any data as requested and would work with the school to create reports as requested.

B6. RETURN POLICY:

As most promotional products are customized, returns for convenience are generally not possible. In the case of damaged or defective goods Campus Survival Kits will take appropriate action based on the specific circumstances.

B7. QUALITY CONTROL:

All promotional products go through a proofing process prior to production and often include a pre-production photo. Items are often shipped directly from the manufacturer to the customer, but based on the proximity of Campus Survival Kits to the Mason campus we would likely opt to deliver items directly to the school to ensure complete satisfaction with the ordered items.

B8-9. SUSTAINABILITY PROGRAMS:

Campus Survival Kits prefers to use manufacturers who have established sustainability programs. However, due to the specific and limited sourcing options for some products, this is not always possible. Campus Survival Kits is happy to work with Mason to maximize use of companies with these policies as needed.

B10. PACKAGING MATERIALS:

Campus Survival Kits avoids the use of single-use plastics and plastic packaging materials whenever possible. Our kits use paper packaging only, and in most cases it is recycled, eco-friendly packaging.

ADDITIONAL QUESTIONS:

Campus Survival Kits is not currently in litigation, nor is it under any investigations by any state, local federal or regulatory body. There have been no lawsuits. Campus Survival Kits originally registered its EIN as Amy Robinson/Amelia's Creations. Campus Survival Kits was originally a DBA of Amelia's Creations, and was changed to an LLC in 2018.

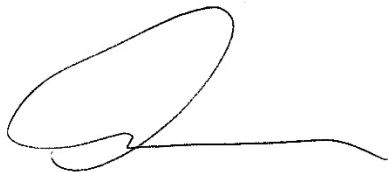

EDUCATIONAL SESSIONS:

Campus Survival Kits would be pleased to train interested departments on how to search our catalog and evaluate different purchasing options. Due to our convenient location in Fairfax we could be available as needed to conduct on-site training or training via phone.

PAYMENT PREFERENCE: Option #3 – Net 30 Payment Terms

Thank you for the opportunity to be considered for this contract. Campus Survival Kits is proud to be a woman-owned small business and we look forward to partnering with George Mason University to provide quality products, great prices, and unmatched customer service.

Respectfully Submitted,
