1. Contractor will use University Data only for the purpose of fulfilling its duties under the Contract and will not share such data with or disclose it to any third party without the prior written consent of Mason, except as required by the Contract or as otherwise required by law. University Data will only be processed by Contractor to the extent necessary to fulfill its responsibilities under the Contract or as otherwise directed by Mason.
 2. University Data, including any back-ups, will not be accessed, stored, or transferred outside the United States without prior written consent from Mason. Contractor will provide access to University Data only to its employees and subcontractors who need to access the data to fulfill Contractor's obligations under the Contract. Contractor will ensure that employees who perform work under the Contract have read, understood, and received appropriate instruction as to how to comply with the data protection provisions of the Contract and to maintain the confidentiality of the University Data.
 3. The parties agree that as between them, all rights including all intellectual property rights in and to University Data shall remain the exclusive property of Mason, and Contractor has a limited, nonexclusive license to use the University Data as provided in the Contract solely for the purpose of performing its obligations under the Contract. The Contract does not give a party any rights, implied or otherwise, to the other party's data, content, or intellectual property, except as expressly stated in the Contract.
 4. Contractor will take reasonable measures, including audit trails, to protect University Data against deterioration or degradation of data quality and authenticity. Contractor shall be responsible for ensuring that University Data, per the Virginia Public Records Act, is preserved, maintained, and accessible throughout their lifecycle, including converting and migrating electronic data as often as necessary so that information is not lost due to hardware, software, or media obsolescence or deterioration.
 5. Contractor shall notify Mason within three business days if it receives a request from an individual under any applicable law regarding PII about the individual, including but not limited to a request to view, access, delete, correct, or amend the information. Contractor shall not take any action regarding such a request except as directed by Mason.
 6. If Contractor will have access to University Data that includes "education records" as defined under the Family Educational Rights and Privacy Act (FERPA), the Contractor acknowledges that for the purposes of the Contract it will be designated as a "school official" with "legitimate educational interests" in the University education records, as those terms have been defined under FERPA and its implementing

regulations, and the Contractor agrees to abide by the limitations and requirements imposed on school officials. Contractor will use the education records only for the purpose of fulfilling its duties under the Contract for Mason's and its end user's benefit, and will not share such data with or disclose it to any third party except as provided for in the Contract, required by law, or authorized in writing by the University.

7. Mason may require that Mason and Contractor complete a Data Processing Addendum ("DPA"). If a DPA is completed, Contractor agrees that the information in the DPA is accurate. Contractor will only collect or process University Data that is identified in the DPA and will only handle that data (e.g., type of processing activities, storage, security, disclosure) as described in the DPA. If Contractor intends to do anything regarding University Data that is not reflected in the DPA, Contractor must request an amendment to the DPA and may not take the intended action until the amendment is approved and documented by Mason.

QQ. UNIVERSITY DATA SECURITY: Data security is of paramount concern to Mason. Contractor will utilize, store and process University Data in a secure environment in accordance with commercial best practices, including appropriate administrative, physical, and technical safeguards, to secure such data from unauthorized access, disclosure, alteration, and use. Such measures will be no less protective than those used to secure Contractor's own data of a similar type, and in no event less than reasonable in view of the type and nature of the data involved. At a minimum, Contractor shall use industry-standard and up-to-date security tools and technologies such as anti-virus protections and intrusion detection methods to protect University Data.

1. Immediately upon becoming aware of circumstances that could have resulted in unauthorized access to or disclosure or use of University Data, Contractor will notify Mason, fully investigate the incident, and cooperate fully with Mason's investigation of and response to and remediation of the incident. Except as otherwise required by law, Contractor will not provide notice of the incident directly to individuals who's PII was involved, regulatory agencies, or other entities, without prior written permission from Mason.
2. Mason reserves the right in its sole discretion to perform audits of Contractor, at Mason's expense, to ensure compliance with all obligations regarding University Data. Contractor shall reasonably cooperate in the performance of such audits. Contractor will make available to Mason all information necessary to demonstrate compliance with its data processing obligations. Failure to adequately protect University Data or comply with the terms of this Contract with regard to University Data may be grounds to terminate this Contract.

RR. UNIVERSITY DATA UPON TERMINATION OR EXPIRATION: Upon termination or expiration of the Contract, Contractor will ensure that all University Data are securely returned or destroyed as directed by Mason in its sole discretion within 180 days of the request being made. Transfer to Mason or a third party designated by Mason shall occur within a reasonable period of time, and without significant interruption in service. Contractor shall ensure that such transfer/migration uses facilities and methods that are compatible with the relevant systems of Mason or its transferee, and to the extent technologically feasible, that Mason will have reasonable access to University Data during the transition. In the event that Mason requests destruction of its data, Contractor agrees to destroy all data in its possession and in the possession of any subcontractors or agents to which the Contractor might have transferred University Data. Contractor agrees to provide documentation of data destruction to the University.

Contractor will notify the University of any impending cessation of its business and any contingency plans. This includes immediate transfer of any previously escrowed assets and University Data and providing Mason access to Contractor's facilities to remove and destroy Mason-owned assets and University Data. Contractor shall implement its exit plan and take all necessary actions to ensure a smooth transition of service with minimal disruption to Mason. Contractor will also provide a full inventory and configuration of servers, routers, other hardware, and software involved in service delivery along with supporting documentation, indicating which if any of these are owned by or dedicated to Mason. Contractor will work closely with its successor to ensure a successful transition to the new equipment, with minimal downtime and effect on Mason, all such work to be coordinated and performed in advance of the formal, final transition date.

SS. UNIVERSITY REVIEW/APPROVAL: All goods, services, products, design, etc. produced by the Contractor for or on behalf of Mason are subject to Mason's review and approval.

TT. WAIVER: The failure of a party to enforce any provision in this Contract shall not be deemed to be a waiver of such right.

SUBJECT: Negotiations: RFP GMU-1878-23, Strategic Communications & Media Relations

Dear Mr. Kennedy:

We have reached the point in the RFP process where we are ready to start negotiations/clarifications as provided for in Section XIV, B of the subject RFP. Therefore, we would appreciate your response to the following:

1. Mason is an educational institution and entity of the Commonwealth of Virginia. As such, we are obligated to ensure that all pricing and contractual elements meet our institution’s needs. Mason proposes that we may engage Kennedy & Company’s services in either of the following scenarios:
 - a. Actual hours worked based on your discounted hourly rates, by category, with an agreed upon monthly Not-To-Exceed (NTE) amount.
 - b. A Firm-Fixed-Price basis, based on the discounted rates agreed upon, for a time-bound project with fixed deliverables.

In both of the above scenarios, we must understand the discounted hourly rates that form the basis of a and b above.

In addition, out-of-pocket expenses must be pre-approved by Mason and invoiced on a reimbursement basis, at cost. There will be no reimbursement for administrative costs including but not limited to; faxing, office supplies, phone, etc. Use of agency’s media tracking resources must be available to Mason at no additional cost.

With this in mind, please provide your discounted hourly rates per labor category.

Kennedy & Company Response:

We have set our rates here to mirror those used in our current Mason VASCUPP contract (GMU-1827-23-01) for consistency.

Partner: \$375
Principal: \$325
Manager: \$275
Associate: \$250
Analyst: \$230

Mason’s Response: The final contract will be based on true hourly rates and actual hours worked, not a flat monthly retainer. Are the rates above your true hourly rates to provide service to Mason?

Confirm Kennedy & Company will allow the use of their media tracking resources at no additional cost and your understanding out-of-pocket expenses must be pre-approved invoiced on a reimbursement basis, at cost.

Kennedy & Company Response: Kennedy & Company's rates have been made to match our VASCUPP contract with Mason. Kennedy & Company will provide free access, upon request, to its existing media tracking resources (Feedly Pro+, Google).

2. At Mason's discretion, we may request access to Kennedy & Company's PR Newswire or Business Wire subscription. The cost shall be passed through to Mason on the monthly invoice at cost with no additional markup.

Kennedy & Company Response:

Kennedy & Company agrees to this request.

Mason's Response: Accept

3. Confirm you understand if travel is required, it will only be paid on a reimbursement basis in accordance with Mason's policies, <http://fiscal.gmu.edu/travel/>, and GSA per diem rates.  - Hourly rate agreement invoices must detail the work performed per labor category with a breakdown of the hours worked for each task, each month. Invoices shall not exceed the agreed monthly NTE total.

Kennedy & Company Response:

Kennedy & Company confirms that it understands the terms of Mason's payment and invoicing policies.

Mason's Response: Accept

5. For each engagement, confirm Kennedy & Company will provide detailed weekly performance metrics and reporting. This should include a brief summary of work, updates on campaign progress, and any media hits.

Kennedy & Company Response:

Kennedy & Company confirms this provision.

- I. **PURPOSE:** The purpose of this Request for Proposal (RFP) is to solicit proposals to establish a contract through competitive negotiations with one or more qualified vendors to provide strategic communications and media relations support for George Mason University. George Mason University (herein after referred to as “Mason,” or “University”) is an educational institution and agency of the Commonwealth of Virginia.

Mason intends to award to multiple vendors as a result of this solicitation. One vendor to work closely with the Office of University Branding and a selection of additional vendors to contract with on an as needed basis.

- II. **PURCHASING MANUAL/GOVERNING RULES:** This solicitation and any resulting contract shall be subject to the provisions of the Commonwealth of Virginia *Purchasing Manual for Institutions of Higher Education and their Vendor's*, and any revisions thereto, and the *Governing Rules*, which are hereby incorporated into this contract in their entirety. A copy of both documents is available for review at: <https://vascup.org>

- III. **COMMUNICATION:** Communications regarding the Request For Proposals shall be formal from the date of issuance until a contract has been awarded. Unless otherwise instructed offerors are to communicate with only the Procurement Officers listed on the cover page. Offerors are not to communicate with any other employees of Mason.

- IV. **FINAL CONTRACT:** ATTACHMENT B to this solicitation is Mason’s standard two-party contract. It is the intent of this solicitation to base the final contractual documents off of Mason’s standard two-party contract and Mason’s General Terms and Conditions. Any exceptions to our standard contract and General Terms and Conditions should be denoted in your RFP response. Other documents may be incorporated into the final contract, either by way of attachment or by reference, but in all cases this contract document and Mason’s General Terms and Conditions shall jointly take precedence over all other documents and will govern the terms and conditions of the contract.

As a public institution of higher education in Virginia Mason cannot agree to any of the following terms in any documents:

- A. An express or implied waiver of sovereign immunity.
- B. An agreement to indemnify, defend or hold harmless any entity.
- C. An agreement to maintain insurance.
- D. An agreement providing for binding arbitration.
- E. An agreement providing for the payment of attorneys' fees, costs of collection, or liquidated damages.
- F. Waiver of jury trial.
- G. Choice of law or venue other than the Commonwealth of Virginia.

Contracts will only be issued to the FEI/FIN Number and Firm listed on the signed cover page submitted in your RFP response. Joint proposals will not be accepted.

- V. **ADDITIONAL USERS:** It is the intent of this solicitation and resulting contract(s) to allow for cooperative procurement. Accordingly, any public body, public or private health or educational institutions, or affiliated corporations may access any resulting contract if authorized by the contractor.

Participation in this cooperative procurement is strictly voluntary. If authorized by the Contractor(s), the resultant contract(s) will be extended to the entities indicated above to purchase goods and services in accordance with contract terms. As a separate contractual relationship, the participating entity will place its own orders directly with the Contractor(s) and shall fully and independently administer its use of the contract(s) to include contractual disputes, invoicing and payments without direct administration from the University. No modification of this contract or execution of a separate agreement is required to participate; however, the participating entity and the Contractor may modify the terms and conditions of the contract to accommodate specific governing laws, regulations, policies, and business goals required by the participating entity. Any such modification will apply solely between the participating entity and the contractor.

The University may require the Contractor provide semi-annual usage reports for all entities accessing the contract. The University shall not be held liable for any costs or damages incurred by any other participating entity as a result of any authorization by the Contractor to extend the contract. It is understood and agreed that the University is not responsible for the acts or omissions of any entity and will not be considered in default of the contract no matter the circumstances.

Use of the resulting contract(s) does not preclude any participating entity from using other contracts or competitive processes as needed.

- VI. **eVA BUSINESS-TO-GOVERNMENT VENDOR REGISTRATION:** The eVA Internet electronic procurement solution,

website portal www.eVA.virginia.gov, streamlines and automates government purchasing activities in the Commonwealth. The eVA portal is the gateway for vendors to conduct business with state agencies and public bodies. All vendors desiring to provide goods and/or services to the Commonwealth shall participate in the eVA Internet eProcurement solution by completing the free eVA Vendor Registration. All bidders or offerors agree to self-register in eVA and pay the Vendor Transaction Fees prior to being awarded a contract. Registration instructions and transaction fees may be viewed at: <https://eva.virginia.gov/>

VII. SWaM CERTIFICATION: Vendor agrees to fully support the Commonwealth of Virginia and Mason's efforts related to SWaM goals. Upon contract execution, eligible vendors (as determined by Mason and the Virginia Department of Small Business and Supplier Diversity) shall submit all required documents necessary to achieve SWaM certification to the Department of Small Business and Supplier Diversity within 90 days. Vendors currently SWaM certified agree to maintain their certification for the duration of the contract and shall submit all required renewal documentation at least 30 days prior to existing SWaM expiration. <https://www.sbsd.virginia.gov/>

VIII. SMALL BUSINESS SUBCONTRACTING PLAN: All potential offerors are required to fill out and submit Attachments A with their proposal.

Note: Invoices shall only be submitted to Mason by the entity awarded a contract. Subcontractors cannot submit invoices to Mason under any resulting contract.

IX. PERIOD OF PERFORMANCE: One (1) year from Effective Date of contract with four (4) successive one-year renewal options (or as negotiated).

X. BACKGROUND: Mason has been called the "best kept secret" and the Office of University Branding (OUB) continues to advance the story of Mason to key audiences, not only through our own storytelling but through story development, earned media, sponsored content, conferences, and partnerships. We are currently far behind our competitors in the region in terms of share of voices and conversation, and this work directly relates to those goals. Further based on the new strategic direction, publicity is a goal in several key areas of impact and measures of success. The process for this work requires a lot of one-on-one conversations, writing and graphic/art creation, cross-university coordination, list development, and planning. There is a significant need for external communications planning, more strategic campaign design and coordination, and increase in engagement with media across the University, and teams have been asking repeatedly for our support, leadership and consolidation of this work to ensure we are managing relationships well.

XI. STATEMENT OF NEEDS: The contractor will work with OUB on an ongoing basis, and with other University departments as needed, as part of story development and media relations. The contractor will assist the OUB team to help increase media coverage and third-party influential endorsements related to inclusive excellence, research, public health, science and tech innovation, business and economic development (including talent development and entrepreneurship), climate and sustainability, law and policy, freedom of speech, democracy and peace, culture and social mobility, educational rigor and outcomes as well as help mitigate crisis and uphold a strong reputation. The contractor will work closely with the OUB Media Relations Manager who coordinates with all of the other Schools and Institutes, and handles most in-coming media requests and crews on campus.

A. The contractor may be responsible for (but not limited to) providing the following services:

1. Communications campaign strategies and development,
2. Establishing a process for information gathering and story development,
3. Protocol and approvals process development and engagement,
4. Key message development,
5. Written and video communications (such as but not limited to: talking points and holding statements, press release, op-ed, video interviews/sample reels, tip sheets, social media content, web content, faculty profiles and Q&As, feature stories, sponsored content, best practices tools and templates, campaign reports/analysis and presentations),
6. Media training for Mason high profile executives and selected topic experts,
7. Executive interview recommendations and relationship building as a key source for media and influencers,
8. Distribution planning, press list development and maintenance,
9. Collaboration with other OUB teams on cross-platform engagement,
10. Crisis communications strategy and support as part of overall OUB crisis response plans,
11. On-site staffing, as needed, for various high-profile events or during crisis management that would likely entail large-scale media turnout to campus;
12. Handling media inquiries;

13. Proactively identify and pitch journalists for stories about Mason or for interviews with leadership and experts at local, regional, national, trade and vertical publications, web, podcasts, tv and radio broadcasts, newsletters, and influential conferences and events that generate positive exposure;
14. Weekly calls and follow-up reports (weekly updates and campaign summaries) with results as well as tracking projects, pitches, approvals, etc.

In addition, individual units often need campaign specific support for these types of services. The contractor will work directly with Mason departments on an as-needed basis. The specific requirements will be identified at the time of engagement and will require a separate scope of work detailing those specific needs.

XII. COST OF SERVICES: Please provide hourly rates as described in Section XIII.B.5 below.

- OO. UNIVERSITY DATA: University Data includes all Mason owned, controlled, or collected PII and any other information that is not intentionally made available by Mason on public websites, including but not limited to business, administrative and financial data, intellectual property, and patient, student and personnel data. 1. Contractor will use University Data only for the purpose of fulfilling its duties under the Contract and will

not share such data with or disclose it to any third party without the prior written consent of Mason, except as required by the Contract or as otherwise required by law. University Data will only be processed by Contractor to the extent necessary to fulfill its responsibilities under the Contract or as otherwise directed by Mason.

2. University Data, including any back-ups, will not be accessed, stored, or transferred outside the United States without prior written consent from Mason. Contractor will provide access to University Data only to its employees and subcontractors who need to access the data to fulfill Contractor's obligations under the Contract. Contractor will ensure that employees who perform work under the Contract have read, understood, and received appropriate instruction as to how to comply with the data protection provisions of the Contract and to maintain the confidentiality of the University Data.
3. The parties agree that as between them, all rights including all intellectual property rights in and to University Data shall remain the exclusive property of Mason, and Contractor has a limited, nonexclusive license to use the University Data as provided in the Contract solely for the purpose of performing its obligations under the Contract. The Contract does not give a party any rights, implied or otherwise, to the other party's data, content, or intellectual property, except as expressly stated in the Contract.
4. Contractor will take reasonable measures, including audit trails, to protect University Data against deterioration or degradation of data quality and authenticity. Contractor shall be responsible for ensuring that University Data, per the Virginia Public Records Act, is preserved, maintained, and accessible throughout their lifecycle, including converting and migrating electronic data as often as necessary so that information is not lost due to hardware, software, or media obsolescence or deterioration.
5. Contractor shall notify Mason within three business days if it receives a request from an individual under any applicable law regarding PII about the individual, including but not limited to a request to view, access, delete, correct, or amend the information. Contractor shall not take any action regarding such a request except as directed by Mason.
6. If Contractor will have access to University Data that includes "education records" as defined under the Family Educational Rights and Privacy Act (FERPA), the Contractor acknowledges that for the purposes of the Contract it will be designated as a "school official" with "legitimate educational interests" in the University education records, as those terms have been defined under FERPA and its implementing regulations, and the Contractor agrees to abide by the limitations and requirements imposed on school officials. Contractor will use the education records only for the purpose of fulfilling its duties under the Contract for Mason's and its end user's benefit, and will not share such data with or disclose it to any third party except as provided for in the Contract, required by law, or authorized in writing by the University.
7. Mason may require that Mason and Contractor complete a Data Processing Addendum ("DPA"). If a DPA is completed, Contractor agrees that the information in the DPA is accurate. Contractor will only collect or process University Data that is identified in the DPA and will only handle that data (e.g., type of processing activities, storage, security, disclosure) as described in the DPA. If Contractor intends to do anything regarding University Data that is not reflected in the DPA, Contractor must request an amendment to the DPA and may not take the intended action until the amendment is approved and documented by Mason.

PP. **UNIVERSITY DATA SECURITY:** Data security is of paramount concern to Mason. Contractor will utilize, store and process University Data in a secure environment in accordance with commercial best practices, including appropriate administrative, physical, and technical safeguards, to secure such data from unauthorized access, disclosure, alteration, and use. Such measures will be no less protective than those used to secure Contractor's own data of a similar type, and in no event less than reasonable in view of the type and nature of the data involved. At a minimum, Contractor shall use industry-standard and up-to-date security tools and technologies such as anti-virus protections and intrusion detection methods to protect University Data.

1. Immediately upon becoming aware of circumstances that could have resulted in unauthorized access to or disclosure or use of University Data, Contractor will notify Mason, fully investigate the incident, and cooperate fully with Mason's investigation of and response to and remediation of the incident. Except as otherwise required by law, Contractor will not provide notice of the incident directly to individuals whose PII was involved, regulatory agencies, or other entities, without prior written permission from Mason.

- 2. Mason reserves the right in its sole discretion to perform audits of Contactor, at Mason’s expense, to ensure compliance with all obligations regarding University Data. Contractor shall reasonably cooperate in the performance of such audits. Contractor will make available to Mason all information necessary to demonstrate compliance with its data processing obligations. Failure to adequately protect University Data or comply with the terms of this Contract with regard to University Data may be grounds to terminate this Contract.

QQ. UNIVERSITY DATA UPON TERMINATION OR EXPIRATION: Upon termination or expiration of the Contract, Contractor will ensure that all University Data are securely returned or destroyed as directed by Mason in its sole discretion within 180 days of the request being made. Transfer to Mason or a third party designated by Mason shall occur within a reasonable period of time, and without significant interruption in service. Contractor shall ensure that such transfer/migration uses facilities and methods that are compatible with the relevant systems of Mason or its transferee, and to the extent technologically feasible, that Mason will have reasonable access to University Data during the transition. In the event that Mason requests destruction of its data, Contractor agrees to destroy all data in its possession and in the possession of any subcontractors or agents to which the Contractor might have transferred University Data. Contractor agrees to provide documentation of data destruction to the University.

Contractor will notify the University of any impending cessation of its business and any contingency plans. This includes immediate transfer of any previously escrowed assets and University Data and providing Mason access to Contractor’s facilities to remove and destroy Mason-owned assets and University Data. Contractor shall implement its exit plan and take all necessary actions to ensure a smooth transition of service with minimal disruption to Mason. Contractor will also provide a full inventory and configuration of servers, routers, other hardware, and software involved in service delivery along with supporting documentation, indicating which if any of these are owned by or dedicated to Mason. Contractor will work closely with its successor to ensure a successful transition to the new equipment, with minimal downtime and effect on Mason, all such work to be coordinated and performed in advance of the formal, final transition date.

RR. UNIVERSITY REVIEW/APPROVAL: All goods, services, products, design, etc. produced by the Contractor for or on behalf of Mason are subject to Mason’s review and approval.

SS. WAIVER: The failure of a party to enforce any provision in this Contract shall not be deemed to be a waiver of such right.

October 25, 2023

Dear Ms. Rauch:

On behalf of Kennedy & Company, I am pleased to present our proposal for Strategic Communications and Media Relations for George Mason University (Mason). Already having a Master Service Agreement in place for other services, Kennedy & Company welcomes the opportunity to work with George Mason University on this RFP.

In this proposal, Kennedy & Company proposes to feature Dr. Matt Charles of UVA to incorporate a strategic and crisis communication and media relations vertical to our business. Given his vast experience as University of Virginia deputy spokesperson during an unprecedented time of crises at UVA (including the tragic events of August 11th and 12th, 2017), helping the UVA Darden School of Business achieve a #1 ranking during his tenure as the School's director of media relations, work as a consultant/trainer and Fulbright Specialist, and service as a Georgetown University professor (2021 Faculty Member of the Year recipient), we believe that Dr. Charles is the optimal fit to represent our firm in working with Mason.

Like us, Dr. Charles has identified Mason as an R1 jewel that has not received the reputational acclaim and attention it deserves. In addition to the University's leading work in accessibility, innovation and entrepreneurship, it boasts top-notch faculty and staff committed to student engagement, bettering society and serving its community.

Dr. Charles's high-stakes professional experience, informed by his time in higher education and as former New York City special investigator working sex and drug crimes involving children has provided him access to key media contacts and the knowledge and experience to position Mason as a reputational higher education leader, mitigate crises through issues management leading practices and provide counsel -- in addition to boots on the ground action -- during crises. To achieve Mason's imperatives, Dr. Charles will work across the University, with Schools and Departments, to formulate the most effective and efficient methods to garner the media attention that will resonate with Mason's stakeholders. His experience as a UVA spokesperson (including his tenure as acting spokesperson when the chief spokesperson was on leave) provided him the understanding of university units, their intricacies and how to work with and between them to help weave a cohesive institutional strategic communication web.

Our Experience

Kennedy & Company was founded to provide colleges and universities with a differentiated advisory offering targeted at addressing their most pressing strategic questions. Our client list includes large public research institutions, state flagship universities and systems, small private colleges, graduate and professional schools, historically black colleges and universities, and community colleges. We are headquartered in Virginia, and proud to be a Virginia-based small business. We have smaller, virtual offices where our team members live. As we grow, we plan to establish offices in some of the country's best college towns – close to those we serve and the energy, diversity, and innovation that colleges and universities create.

Our professionals have decades of experience in higher education and consulting and have helped more than 200 institutions craft new enrollment strategies, develop strategic plans, refine models for financial sustainability, and launch new academic (on-ground and online) offerings. The expertise we bring is detailed in our biographies, but we also want to share the key characteristics that we seek in our team members, as it is not simply what they know, but why and how they do what they do, that matters.

For this proposal, Kennedy & Company has partnered with Dr. Matt Charles of Matt Charles Public Relations+Strategy to lead our media relations and crisis & reputation management work. KENNEDY & COMPANY

University of Virginia

Situation

As UVA's deputy spokesperson during the tragic events of August 11th and 12th when Nazi groups descended upon Downtown Charlottesville and the University, Matt was part of a regional group meeting since early 2017 to plan for this and the Ku Klux Klan rally held Downtown in July 2017. He was also part of UVA's 24/7 emergency response team from 2015-18; writing and disseminating real-time communications to internal and external stakeholders, as well as liaising with UVA, City and County and Virginia State Police officials.

Action

When the Downtown event on the morning of August 12th became violent and it appeared groups were headed toward UVA Grounds, Matt had to run across Grounds to inform University leaders attending other events, advising that in the interest of safety, UVA needed to shut things down and evacuate. Matt sent messages to UVA stakeholders with situation updates and to inform them that the Governor had issued a State of Emergency, closing UVA until further notice. While Grounds were evacuated without incident, he and other UVA officials continued to work around the clock on August 11th and 12th. Matt's police and special investigator experience prepared him for this and provided important perspective. The crisis communications statement template he prepared the previous year as part of UVA's new crisis management and supplementary emergency preparedness plan helped guide UVA's communications efforts.

Outcome

In the following months, Dr. Charles fielded a high number of media calls (local and regional media and national media that included *The New York Times*, CNN, *The Los Angeles Times*, *The Chronicle of Higher Education* and *The Washington Post*), helped navigate a deluge of Freedom of Information Act (FOIA) requests, and assisted with draft revisions to UVA's operating policy to better protect its students, faculty, staff and Grounds going forward. UVA's communications efforts led to changes in state law. They also worked to include students and provide resources to help with their recovery after these traumatic events. In Fall 2018, UVA achieved its highest enrollments (both African-American students and overall applications with our strongest class matriculating to date with 352 African-American students enrolling [up 34% since 2013] and 1310 minority students enrolling [up 35% since 2013]).

KENNEDY & COMPANY

University of Virginia Darden School of Business

Situation

In Dr. Charles's position as UVA's Darden School of Business media relations director, he and his colleagues realized the need to advance the School's national reputation through high-profile media relations efforts to help with MBA and Executive Education enrollments.

Action

Dr. Charles successfully pitched *The Washington Post* (ex. [Darden: Making Differences Work](#)) to run a series of articles, authored by Darden School professors, promoting the benefits of the School's Executive Education program. He leveraged these articles, by incorporating a PESO (paid, earned, social and owned) media approach. This was critical to program survival, as the 2013 sequestration and government shutdown drastically reduced program funding. This series augmented *The Washington Post's Case In Point* series that Matt also oversaw (ex. [Casket Business Triumphs, Diversifies Through Acquisitions](#)). This series ultimately ran over 100 pieces.

Outcome

The Washington Post ran 14 articles over the next year which, with collaboration with the marketing, web and social teams, helped increase Executive Education enrollment by 135% over the next 15 months. Darden also achieved a No. 1 ranking, with media placements being a scored factor. The budget was approximately \$75,000 per year.

Purdue University

Situation

The Purdue University Brian Lamb School of Communication, located in West Lafayette, Indiana, is the top-ranked communications program in the United States. However, like most higher education institutions they have experienced increased competition that had resulted in decreased online format enrollments.

Action

Dr. Charles worked with the Purdue team on course pedagogy, program deployment and strategy to increase enrollments through media relations and provided crisis counsel during 2020-2021 social unrest and COVID-response to maintain and advance the School's reputation. He also provided counsel on marketing efforts, allocating six-credit hours of coursework for an earned Accreditation in Public Relations (APR) certification and creation of badge certifications for courses completed.

Outcome

The School achieved a 23% increase in online format enrollment and received support from the University and Indiana Commission for Higher Education to allocate six-credit hours of coursework for an earned Accreditation in Public Relations (APR) certification which has helped bolster enrollment.

KENNEDY & COMPANY

Plan Methodology

Kennedy & Company will utilize Dr. Charles's experience working across Schools and Departments as a spokesperson at the University of Virginia (overseeing crisis, issues and reputation management), community relations and FOIA) and director of media relations at the UVA Darden School of Business to advance Mason's reputation. He also will leverage his experience as a UVA crisis manager, Georgetown and Purdue graduate school professor, and consultant to aid the University in its crisis planning and response. Matt will work with the central Mason communications team (a comprehensive approach that includes marketing, public relations, social and owned media) to advance its brand through strategic communications across Schools and Departments. This work includes tailoring central messaging/brand engagement for each segment of the University – consistency and discipline are key. All work will go through the appropriate approval channels.

Utilizing Meltwater and his existing media contact list, Matt will work with Mason communicators on proactive media relations to both advance the University's reputation and get ahead of crisis. He also will work with key communicators to schedule media tours and invite media to campus, as to best demonstrate and tell the Mason story. Banked goodwill through positive reputation is invaluable during difficult times. Based in the area, he is available to deploy to Mason at a moment's notice. This work is critical to position Mason – with its unique stories -- as the top University in the Commonwealth of Virginia, District of Columbia and Maryland. The University has the assets to make the possible. Having worked extensively at UVA and teaching at American University and Georgetown University, in addition to earning his master's at Virginia Commonwealth University, Matt is uniquely positioned to help Mason overtake this reputational position through his extensive international, national, regional and local media contacts. He is conditioned to working across University units to make cohesive messaging a reality. This includes extensive executive communication work in the President's, Provost's and Chief Operating Officer's offices, quickly earning their trust, and being available for on-site media relations training.

It is vital to engage with stakeholders that include current students, prospective students and their parents, and donors (let's not forget government leaders, community members, faculty and staff) to advance the Mason brand. This includes media relations strategies to promote Mason's important IDEA (inclusion, diversity, equity and accessibility) and social mobility work. This, with other factors and metrics will boost the University in rankings. It is important to note that Matt played a key role in the UVA Darden School's No.1 ranking (that included entrepreneurship and innovation metrics) and UVA's Top 25 ranking. Client discovery is necessary to formulate strategic planning SMART objectives and their respective evaluation, but proposed success includes top-decile media sentiment, a significant (for Mason, 25% or more) increase in top-tier media coverage (defined as peers to publications that include *The New York Times*, *The Wall Street Journal*, *Wired*, etc.) and ranking increase within one year (media, often is a metric).
