- LL. RESPONSE TO LEGAL ORDERS, DEMANDS, OR REQUESTS FOR DATA: Except as otherwise expressly prohibited by law, Contractor will: i) immediately notify Mason of any subpoenas, warrants, or other legal orders, demands or requests received by Contractor seeking University Data; ii) consult with Mason regarding its response; iii) cooperate with Mason’s reasonable requests in connection with efforts by Mason to intervene and quash or modify the legal order, demand or request; and iv) upon Mason’s request, provide Mason with a copy of its response.

If Mason receives a subpoena, warrant, or other legal order, demand (including request pursuant to the Virginia Freedom of Information Act) or request seeking University Data maintained by Contractor, Mason will promptly provide a copy to Contractor. Contractor will promptly supply Mason with copies of data required for Mason to respond, and will cooperate with Mason’s reasonable requests in connection with its response.

- MM. SEVERABILITY: Should any portion of this Contract be declared invalid or unenforceable for any reason, such portion is deemed severable from the Contract and the remainder of this Contract shall remain fully valid and enforceable.

- NN. SOVEREIGN IMMUNITY: Nothing in this Contract shall be deemed a waiver of the sovereign immunity of the Commonwealth of Virginia and of Mason.

- OO. SUBCONTRACTS: No portion of the work shall be subcontracted without prior written consent from Mason. In the event that the Contractor desires to subcontract some part of the work specified herein, the Contractor shall furnish Mason the names, qualifications and experience of their proposed subcontractors. The Contractor shall, however, remain fully liable and responsible for the work to be done by its subcontractor(s) and shall assure compliance with all requirements of this Contract. This paragraph applies to, but is not limited to, subcontractor(s) who process University Data.

- PP. SWaM CERTIFICATION: Contractor agrees to fully support the Commonwealth of Virginia and Mason’s efforts related to SWaM goals. Upon contract execution, Contractor (as determined by Mason and the Virginia Department of Small Business and Supplier Diversity) shall submit all required documents necessary to achieve SWaM certification to the Department of Small Business and Supplier Diversity within 90 days. If Contractor is currently SWaM certified, Contractor agrees to maintain their certification for the duration of the Contract and shall submit all required renewal documentation at least 30 days prior to existing SWaM expiration at <https://www.sbsd.virginia.gov/>.

- QQ. UNIVERSITY DATA: University Data includes all Mason owned, controlled, or collected PII and any other information that is not intentionally made available by Mason on public websites, including but not limited to business, administrative and financial data, intellectual property, and patient, student and personnel data. Contractor agrees to the following regarding University Data it may collect or process as part of this Contract:

1. Contractor will use University Data only for the purpose of fulfilling its duties under the Contract and will not share such data with or disclose it to any third party without the prior written consent of Mason, except as required by the Contract or as otherwise required by law. University Data will only be processed by Contractor to the extent necessary to fulfill its responsibilities under the Contract or as otherwise directed by Mason.
2. University Data, including any back-ups, will not be accessed, stored, or transferred outside the United States without prior written consent from Mason. Contractor will provide access to University Data only to its employees and subcontractors who need to access the data to fulfill Contractor’s obligations under the Contract. Contractor will ensure that employees who perform work under the Contract have read, understood, and received appropriate instruction as to how to comply with the data protection provisions of the Contract and to maintain the confidentiality of the University Data.
3. The parties agree that as between them, all rights including all intellectual property rights in and to University Data shall remain the exclusive property of Mason, and Contractor has a limited, nonexclusive license to use the University Data as provided in the Contract solely for the purpose of performing its obligations under the Contract. The Contract does not give a party any rights, implied or otherwise, to the other party’s data,

content, or intellectual property, except as expressly stated in the Contract.

4. Contractor will take reasonable measures, including audit trails, to protect University Data against deterioration or degradation of data quality and authenticity. Contractor shall be responsible for ensuring that University Data, per the Virginia Public Records Act, is preserved, maintained, and accessible throughout their lifecycle, including converting and migrating electronic data as often as necessary so that information is not lost due to hardware, software, or media obsolescence or deterioration.
5. Contractor shall notify Mason within three business days if it receives a request from an individual under any applicable law regarding PII about the individual, including but not limited to a request to view, access, delete, correct, or amend the information. Contractor shall not take any action regarding such a request except as directed by Mason.
6. If Contractor will have access to University Data that includes “education records” as defined under the Family Educational Rights and Privacy Act (FERPA), the Contractor acknowledges that for the purposes of the Contract it will be designated as a “school official” with “legitimate educational interests” in the University education records, as those terms have been defined under FERPA and its implementing regulations, and the Contractor agrees to abide by the limitations and requirements imposed on school officials. Contractor will use the education records only for the purpose of fulfilling its duties under the Contract for Mason’s and its end user’s benefit, and will not share such data with or disclose it to any third party except as provided for in the Contract, required by law, or authorized in writing by the University.
7. Mason may require that Mason and Contractor complete a Data Processing Addendum (“DPA”). If a DPA is completed, Contractor agrees that the information in the DPA is accurate. Contractor will only collect or process University Data that is identified in the DPA and will only handle that data (e.g., type of processing activities, storage, security, disclosure) as described in the DPA. If Contractor intends to do anything regarding University Data that is not reflected in the DPA, Contractor must request an amendment to the DPA and may not take the intended action until the amendment is approved and documented by Mason.

RR. UNIVERSITY DATA SECURITY: Data security is of paramount concern to Mason. Contractor will utilize, store and process University Data in a secure environment in accordance with commercial best practices, including appropriate administrative, physical, and technical safeguards, to secure such data from unauthorized access, disclosure, alteration, and use. Such measures will be no less protective than those used to secure Contractor’s own data of a similar type, and in no event less than reasonable in view of the type and nature of the data involved. At a minimum, Contractor shall use industry-standard and up-to-date security tools and technologies such as anti-virus protections and intrusion detection methods to protect University Data.

1. Immediately upon becoming aware of circumstances that could have resulted in unauthorized access to or disclosure or use of University Data, Contractor will notify Mason, fully investigate the incident, and cooperate fully with Mason’s investigation of and response to and remediation of the incident. Except as otherwise required by law, Contractor will not provide notice of the incident directly to individuals who’s PII was involved, regulatory agencies, or other entities, without prior written permission from Mason.
2. Mason reserves the right in its sole discretion to perform audits of Contractor, at Mason’s expense, to ensure compliance with all obligations regarding University Data. Contractor shall reasonably cooperate in the performance of such audits. Contractor will make available to Mason all information necessary to demonstrate compliance with its data processing obligations. Failure to adequately protect University Data or comply with the terms of this Contract with regard to University Data may be grounds to terminate this Contract.

SS. UNIVERSITY DATA UPON TERMINATION OR EXPIRATION: Upon termination or expiration of the Contract, Contractor will ensure that all University Data are securely returned or destroyed as directed by Mason in its sole discretion within 180 days of the request being made. Transfer to Mason or a third party designated by Mason shall occur within a reasonable period of time, and without significant interruption in service. Contractor shall ensure that such transfer/migration uses facilities and methods that are compatible with the relevant systems of Mason or its transferee, and to the extent technologically feasible, that Mason will have reasonable access to University Data during the transition. In the event that Mason requests destruction of its data, Contractor agrees to destroy all data in its possession and in the possession of any subcontractors or agents to which the Contractor might have transferred University Data. Contractor agrees to provide documentation of data destruction to the University.

Contractor will notify the University of any impending cessation of its business and any contingency plans. This includes immediate transfer of any previously escrowed assets and University Data and providing Mason access to Contractor’s facilities to remove and destroy Mason-owned assets and University Data. Contractor shall implement its exit plan and take all necessary actions to ensure a smooth transition of service with minimal disruption to Mason. Contractor will also provide a full inventory and configuration of servers, routers, other hardware, and software involved in service delivery along with supporting documentation, indicating which if any of these are owned by or dedicated to Mason. Contractor will work closely with its successor to ensure a successful transition to the new equipment, with minimal downtime and effect on Mason, all such work to be coordinated and performed in advance of the formal, final transition date.

- TT. UNIVERSITY REVIEW/APPROVAL: All goods, services, products, design, etc. produced by the Contractor for or on behalf of Mason are subject to Mason’s review and approval.
- UU. WAIVER: The failure of a party to enforce any provision in this Contract shall not be deemed to be a waiver of such right.
- VV. WARRANTY: Unless otherwise provided in this Contract, the Contractor hereby represents and warrants: (a) that no third party has any ownership rights in, to, or arising out of the Photographs-Videos supplied hereunder; and (b) that the Photographs-Videos comply with the University’s specifications and are free from any material defects in design or workmanship.

- I. PURPOSE:** The purpose of this Request for Proposal (RFP) is to solicit proposals to establish a contract through competitive negotiations with one or more qualified vendors to provide on-going, as needed, photography and videography services to various departments of George Mason University, to include, but not limited to, the Office of University Branding (OUB) and other departments through OUB, the Washington Scholars Program (WSP) through Admissions, Intercollegiate Athletics (ICA), and the Antonin Scalia Law School. The goal of this process is to establish a roster of highly qualified photographer and videographer contractors who will best meet the University's needs and at reasonable pricing. George Mason University (herein after referred to as "Mason," or "University") is a public institution of higher education and agency of the Commonwealth of Virginia.

This RFP will result in multiple awards. Award of a contract will not guarantee a specific amount of photography or videography assignments.

- II. PURCHASING MANUAL/GOVERNING RULES:** This solicitation and any resulting contract shall be subject to the provisions of the Commonwealth of Virginia *Purchasing Manual for Institutions of Higher Education and their Vendor's*, and any revisions thereto, and the *Governing Rules*, which are hereby incorporated into this contract in their entirety. A copy of both documents is available for review at: <https://vascupp.org>

- III. COMMUNICATION:** Communications regarding the Request For Proposals shall be formal from the date of issuance until a contract has been awarded. Unless otherwise instructed offerors are to communicate with only the Procurement Officers listed on the cover page. Offerors are not to communicate with any other employees of Mason.

- IV. FINAL CONTRACT:** ATTACHMENT B to this solicitation is Mason's standard two-party contract. It is the intent of this solicitation to base the final contractual documents off of Mason's standard two-party contract and Mason's General Terms and Conditions. Any exceptions to our standard contract and General Terms and Conditions should be denoted in your RFP response. Other documents may be incorporated into the final contract, either by way of attachment or by reference, but in all cases this contract document and Mason's General Terms and Conditions shall jointly take precedence over all other documents and will govern the terms and conditions of the contract.

As a public institution of higher education in Virginia Mason cannot agree to any of the following terms in any documents:

- A. An express or implied waiver of sovereign immunity.
- B. An agreement to indemnify, defend or hold harmless any entity.
- C. An agreement to maintain insurance.
- D. An agreement providing for binding arbitration.
- E. An agreement providing for the payment of attorneys' fees, costs of collection, or liquidated damages.
- F. Waiver of jury trial.
- G. Choice of law or venue other than the Commonwealth of Virginia.

Contracts will only be issued to the FEI/FIN Number and Firm listed on the signed cover page submitted in your RFP response. Joint proposals will not be accepted.

- V. ADDITIONAL USERS:** It is the intent of this solicitation and resulting contract(s) to allow for cooperative procurement. Accordingly, any public body, public or private health or educational institutions, or affiliated corporations may access any resulting contract if authorized by the contractor.

Participation in this cooperative procurement is strictly voluntary. If authorized by the Contractor(s), the resultant contract(s) will be extended to the entities indicated above to purchase goods and services in accordance with contract terms. As a separate contractual relationship, the participating entity will place its own orders directly with the Contractor(s) and shall fully and independently administer its use of the contract(s) to include contractual disputes, invoicing and payments without direct administration from the University. No modification of this contract or execution of a separate agreement is required to participate; however, the participating entity and the Contractor may modify the terms and conditions of the contract to accommodate specific governing laws, regulations, policies, and business goals required by the participating entity. Any such modification will apply solely between the participating entity and the contractor.

The University may require the Contractor provide semi-annual usage reports for all entities accessing the contract. The University shall not be held liable for any costs or damages incurred by any other participating entity as a result of any authorization by the Contractor to extend the contract. It is understood and agreed that the University is not responsible for the acts or omissions of any entity and will not be considered in default of the contract no matter the circumstances.

Use of the resulting contract(s) does not preclude any participating entity from using other contracts or competitive processes as needed.

- VI. eVA BUSINESS-TO-GOVERNMENT VENDOR REGISTRATION:** The eVA Internet electronic procurement solution, website portal [www.eVA.virginia.gov](http://www.eVA.virginia.gov), streamlines and automates government purchasing activities in the Commonwealth. The eVA portal is the gateway for vendors to conduct business with state agencies and public bodies. All vendors desiring to provide goods and/or services to the Commonwealth shall participate in the eVA Internet eProcurement solution by completing the free eVA Vendor Registration. All bidders or offerors agree to self-register in eVA and pay the Vendor Transaction Fees prior to being awarded a contract. Registration instructions and transaction fees may be viewed at: <https://eva.virginia.gov/>
- VII. SWaM CERTIFICATION:** Vendor agrees to fully support the Commonwealth of Virginia and Mason's efforts related to SWaM goals. Upon contract execution, eligible vendors (as determined by Mason and the Virginia Department of Small Business and Supplier Diversity) shall submit all required documents necessary to achieve SWaM certification to the Department of Small Business and Supplier Diversity within 90 days. Vendors currently SWaM certified agree to maintain their certification for the duration of the contract and shall submit all required renewal documentation at least 30 days prior to existing SWaM expiration. <https://www.sbsd.virginia.gov/>
- VIII. SMALL BUSINESS SUBCONTRACTING PLAN:** All potential offerors are required to fill out and submit Attachments A with their proposal.
- Note: Invoices shall only be submitted to Mason by the entity awarded a contract. Subcontractors cannot submit invoices to Mason under any resulting contract.
- IX. PERIOD OF PERFORMANCE:** One (1) year from Effective Date of contract with four (4) successive one-year renewal options (or as negotiated).
- X. BACKGROUND:** Mason (as a whole) utilizes a significant amount of outside photography & videography support. The Office of University Branding (OUB) is not staffed to support the volume of individual unit requests for photography or videography, so the need for outside support is growing. Mason seeks to create a pool of qualified vendors that can support the university in telling our story through visuals. Mason must retain ownership of all deliverables and copyright ownership of all media produced. Media may be added to the university's central collection. OUB will maintain a list of vendors that are awarded a contract as the result of this RFP. Mason's 250+ departments will be directed to this list of vendors for photography or videography needs.

To see the style and types of photos in Mason's collection, you can browse here: <https://photo.gmu.edu/browse/>.

**Background specific to the Washington Scholars Program (Statement of Needs, B.):**

The Washington Scholars Program invites high school scholars from around the world to Mason to experience a week-long conference with a concentration in either journalism or environmental science. The programs are offered 3 weeks during the summer. They offer college credit from the university and a life changing experience. To document the experiences of the students, the programs include a photographer/videographer. This person travels with the program and tells the story of the Washington Youth Summit on the Environment (WYSE) and the Washington Journalism & Media Conference (WJMC) through photos and video recaps. The videographer will also piece together the footage of the week into a 7-8 minute final video due on the final day(s) of each program. The final video is presented to the students at the closing ceremony. The footage may also be used for future promotional materials. These enhancements to the conference experience leave the students satisfied with their time at Mason, and they have a positive impression of the university – allowing the conferences to be used as a recruitment tool. The conferences are also revenue generating, bringing in money for the school. You can learn more about the programs at [wyse.gmu.edu](http://wyse.gmu.edu) and [wjmc.gmu.edu](http://wjmc.gmu.edu). We are willing to work with one vendor who can provide both photography and videography services or with two separate vendors to specialize in each component, as long as they are willing and able to collaborate with their counterpart to deliver the product.

Transfer to Mason or a third party designated by Mason shall occur within a reasonable period of time, and without significant interruption in service. In the event that Mason requests destruction of its data, Contractor agrees to destroy all data in its possession and in the possession of any subcontractors or agents to which the Contractor might have transferred University Data. Contractor agrees to provide documentation of data destruction to the University.

Contractor will notify the University of any impending cessation of its business and any contingency plans. Contractor shall implement its exit plan and take all necessary actions to ensure a smooth transition of service with minimal disruption to Mason. Of all of the design elements that go into creating a brand’s visual identity, photography is probably the most powerful component. Photos tell our story louder than words; great photography can get you the chance for the attention you need to communicate. Mason photos tell people here and around the world that we exist and act, both here and around the world. The images we select and use convey our philosophy (enriching lives, doing work that matters, defining excellence) and personality (inspired, challenged, open, united, and diverse).

Resist the temptation to jam the photos in with too much text. To work well in communicating for you, photos need the appropriate amount of space to be of a size that has impact. In addition, you don’t need a photo to illustrate every editorial message. Fewer but larger photos are much more effective in conveying your message than a lot of little photos people won’t pay attention to.

#### General Guidelines for Using Photography

- Use fewer, larger images for maximum impact

## **b. POTENTIAL CHALLENGES**

**Potential challenges you might foresee in performing these services, and potential solutions to mitigate these challenges.**

---

Visions Entertainment Studios anticipates potential challenges in executing the services outlined in this RFP and has developed mitigation strategies to ensure successful project completion:

### **Weather Conditions:**

Challenge:

Outdoor shoots are susceptible to unpredictable weather conditions such as rain, wind, extreme temperatures, sun placement, clouds, etc., which can impact the quality and feasibility of the shoot.

Mitigation:

We closely monitor weather forecasts and have backup plans for indoor shooting locations or re-scheduling options in case of adverse weather. Additionally, we assess sun placement and cloud cover to optimize lighting conditions during outdoor shoots.

### **Fear of Being Understaffed:**

Challenge:

Budget constraints may lead to concerns about being understaffed for projects specifically the Conference.

Mitigation:

While recognizing the importance of quality support, we optimize our approach to balance budget constraints with the need for adequate staffing, leveraging a network of consultants and crew when necessary.

### **Post-Production Challenges:**

Challenge:

Editing and post-production work can be time-consuming and require attention to detail with tight turn around times.

Mitigation:

We allocate sufficient time for post-production by initiating the editing process during pre-production. This ensures that all assets, music files, and other materials are in place prior to capturing, thereby saving time and promoting an efficient workflow.

By proactively addressing these potential challenges and implementing mitigation strategies, Visions Entertainment Studios is well-equipped to execute the photography and videography work
