Contractor will use University Data only for the purpose of fulfilling its duties under the Contract and will not share such data with or disclose it to any third party without the prior written consent of Mason, except as required by the Contract or as otherwise required by law. University Data will only be processed by Contractor to the extent necessary to fulfill its responsibilities under the Contract or as otherwise directed by Mason.
2. University Data, including any back-ups, will not be accessed, stored, or transferred outside the United States without prior written consent from Mason. Contractor will provide access to University Data only to its employees and subcontractors who need to access the data to fulfill Contractor’s obligations under the Contract. Contractor will ensure that employees who perform work under the Contract have read, understood, and received appropriate instruction as to how to comply with the data protection provisions of the Contract and to maintain the confidentiality of the University Data.
3. The parties agree that as between them, all rights including all intellectual property rights in and to University Data shall remain the exclusive property of Mason, and Contractor has a limited, nonexclusive license to use the University Data as provided in the Contract solely for the purpose of performing its obligations under the Contract. The Contract does not give a party any rights, implied or otherwise, to the other party’s data, content, or intellectual property, except as expressly stated in the Contract.
4. Contractor will take reasonable measures, including audit trails, to protect University Data against deterioration or degradation of data quality and authenticity. Contractor shall be responsible for ensuring that University Data, per the Virginia Public Records Act, is preserved, maintained, and accessible throughout their lifecycle, including converting and migrating electronic data as often as necessary so that information is not lost due to hardware, software, or media obsolescence or deterioration.
5. Contractor shall notify Mason within three business days if it receives a request from an individual under any applicable law regarding PII about the individual, including but not limited to a request to view, access, delete, correct, or amend the information. Contractor shall not take any action regarding such a request except as directed by Mason.
6. If Contractor will have access to University Data that includes “education records” as defined under the Family Educational Rights and Privacy Act (FERPA), the Contractor acknowledges that for the purposes of the Contract it will be designated as a “school official” with “legitimate educational interests” in the University education records, as those terms have been defined under FERPA and its implementing regulations, and the Contractor agrees to abide by the limitations and requirements imposed on school officials. Contractor will use the education records only for the purpose of fulfilling its duties under the Contract for Mason’s and its end user’s benefit, and will not share such data with or disclose it to any third party except as provided for in the Contract, required by law, or authorized in writing by the University.
7. Mason may require that Mason and Contractor complete a Data Processing Addendum (“DPA”). If a DPA is completed, Contractor agrees that the information in the DPA is accurate. Contractor will only collect or process University Data that is identified in the DPA and will only handle that data (e.g., type of processing activities, storage, security, disclosure) as described in the DPA. If Contractor intends to do anything regarding University Data that is not reflected in the DPA, Contractor must request an amendment to the DPA and may not take the intended action until the amendment is approved and documented by Mason.

PP. UNIVERSITY DATA SECURITY: Data security is of paramount concern to Mason. Contractor will utilize, store and

process University Data in a secure environment in accordance with commercial best practices, including appropriate administrative, physical, and technical safeguards, to secure such data from unauthorized access, disclosure, alteration, and use. Such measures will be no less protective than those used to secure Contractor’s own data of a similar type, and in no event less than reasonable in view of the type and nature of the data involved. At a minimum, Contractor shall use industry-standard and up-to-date security tools and technologies such as anti-virus protections and intrusion detection methods to protect University Data.

Immediately upon becoming aware of circumstances that could have resulted in unauthorized access to or disclosure or use of University Data, Contractor will notify Mason, fully investigate the incident, and cooperate fully with Mason’s investigation of and response to and remediation of the incident. Except as otherwise required by law, Contractor will not provide notice of the incident directly to individuals who’s PII was involved, regulatory agencies, or other entities, without prior written permission from Mason.

If Contractor provides goods and services that require the exchange of sensitive University Data, the Data Security Addendum attached to this Contract provides additional requirements Contractor must take to protect the University Data. Mason reserves the right to determine whether the University Data involved in this contract is sensitive, and if it so determines it will provide the Data Security Addendum to Contractor and it will be attached to and incorporated into this contract. Types of University Data that may be considered sensitive include, but is not limited to, (1) PII; (2) credit card data; (3) financial or business data which has the potential to affect the accuracy of the University’s financial statements; (4) medical or health data; (5) sensitive or confidential business information; (6) trade secrets; (7) data which could create a security (including IT security) risk to Mason; and (8) confidential student or employee information.

Mason reserves the right in its sole discretion to perform audits of Contactor, at Mason’s expense, to ensure compliance with all obligations regarding University Data. Contractor shall reasonably cooperate in the performance of such audits. Contractor will make available to Mason all information necessary to demonstrate compliance with its data processing obligations. Failure to adequately protect University Data or comply with the terms of this Contract with regard to University Data may be grounds to terminate this Contract.

QQ. UNIVERSITY DATA UPON TERMINATION OR EXPIRATION: Upon termination or expiration of the Contract, Contractor will ensure that all University Data are securely returned or destroyed as directed by Mason in its sole discretion within 180 days of the request being made. Transfer to Mason or a third party designated by Mason shall occur within a reasonable period of time, and without significant interruption in service. Contractor shall ensure that such transfer/migration uses facilities and methods that are compatible with the relevant systems of Mason or its transferee, and to the extent technologically feasible, that Mason will have reasonable access to University Data during the transition. In the event that Mason requests destruction of its data, Contractor agrees to destroy all data in its possession and in the possession of any subcontractors or agents to which the Contractor might have transferred University Data. Contractor agrees to provide documentation of data destruction to the University.

Contractor will notify the University of any impending cessation of its business and any contingency plans. This includes immediate transfer of any previously escrowed assets and University Data and providing Mason access to Contractor’s facilities to remove and destroy Mason-owned assets and University Data. Contractor shall implement its exit plan and take all necessary actions to ensure a smooth transition of service with minimal disruption to Mason. Contractor will also provide a full inventory and configuration of servers, routers, other hardware, and software involved in service delivery along with supporting documentation, indicating which if any of these are owned by or dedicated to Mason. Contractor will work closely with its successor to ensure a successful transition to the new equipment, with minimal downtime and effect on Mason, all such work to be coordinated and performed in advance of the formal, final transition date.

RR. UNIVERSITY REVIEW/APPROVAL: All goods, services, products, design, etc. produced by the Contractor for or on behalf of Mason are subject to Mason’s review and approval.

SS. WAIVER: The failure of a party to enforce any provision in this Contract shall not be deemed to be a waiver of such right.

George Mason University (the “University”)**

This Addendum supplements the above-referenced Contract between the University and David J. Woodward dated 2/16/23. It is applicable only in those situations where the Selected Firm/Vendor provides goods or services under a Contract or Purchase Order which necessitate that the Selected Firm/Vendor create, obtain, transmit, use, maintain, process, store, or dispose of Sensitive University Data (as defined in the Definitions Section of this Addendum) as part of its work under the Contract.

This Addendum sets forth the terms and conditions pursuant to which Sensitive University Data will be protected by the Selected Firm/Vendor during the term of the Parties’ Contract and after its termination.

**1. Definitions**

Terms used herein shall have the same definition as stated in the Contract. Additionally, the following definitions shall apply to this Addendum.

- a. **“Personally Identifiable Information (“PII”)”** means any information that can be connected to a specific person and may include but is not limited to personal identifiers such as name, address, phone, date of birth, Social Security number, student or personal identification numbers, driver’s license numbers, state or federal identification numbers, non-directory information and any other information protected by state or federal privacy laws.
- b. **“University Data”** includes all University owned Personally Identifiable Information and other information that is not intentionally made generally available by the University on public websites, including but not limited to business, administrative and financial data, intellectual property, and patient, student and personnel data.
- c. **“Sensitive University Data”** means data identified by University to Selected Firm/Vendor as Sensitive University Data and may include, but is not limited to: (1) PII; (2) credit card data; (3) financial or business data which has the potential to affect the accuracy of the University’s financial statements; (4) medical or health data; (5) sensitive or confidential business information; (6) trade secrets; (7) data which could create a security (including IT security) risk to the University; and (8) confidential student or employee information.
- d. **“Securely Destroy”** means taking actions that render data written on media unrecoverable by both ordinary and extraordinary means. These actions must meet or exceed those sections of the National Institute of Standards and Technology (NIST) SP 800-88 guidelines relevant to data categorized as high security.
- e. **“Security Breach”** means a security-relevant event in which the security of a system or procedure used to create, obtain, transmit, maintain, use, process, store or dispose of data is breached, and in which University Data is exposed to unauthorized disclosure, access, alteration, or use.
- f. **“Services”** means any goods or services acquired by the University from the Selected Firm/Vendor.

**2. Data Security**

- a. In addition to the security requirements stated in the Contract, Selected Firm/Vendor warrants that all electronic Sensitive University Data will be encrypted in transmission (including via web interface) and stored at no less than 128-bit level encryption. Additionally, Selected Firm/Vendor warrants that all Sensitive University Data shall be Securely Destroyed, when destruction is requested by University.
- b. If Selected Firm/Vendor’s use of Sensitive University Data include the storing, processing or transmitting of credit card data for the University, Selected Firm/Vendor represents and warrants that for the life of the Contract and while Selected Firm/Vendor has possession of University customer cardholder data, the software and services used for processing transactions shall be compliant with standards established by the Payment Card Industry (PCI) Security Standards Council ([www.pcisecuritystandards.org](http://www.pcisecuritystandards.org)). In the case of a third-party application, the application will be listed as PA-DSS compliant at the time of implementation by the University. Selected Firm/Vendor acknowledges and agrees that it is responsible for the security of all University customer cardholder data or identity information managed, retained, or maintained by Selected Firm/Vendor, including but not limited to protecting against fraudulent or unapproved use of such credit card or identity information. Selected Firm/Vendor agrees to indemnify and hold the University, its officers, employees, and agents, harmless for, from, and against any and all claims, causes of action, suits, judgments, assessments, costs (including reasonable attorneys’ fees), and expenses arising out of or relating to any loss of University customer credit card or identity information managed, retained, or maintained by Selected Firm/Vendor, including but not limited to fraudulent or unapproved use of such credit card or identity information. Selected Firm/Vendor shall, upon written request, furnish proof of compliance with the Payment Card Industry Data Security Standard (PCI DSS) within 10 business days of the request. Selected Firm/Vendor agrees that, notwithstanding anything to the contrary in the Contract or the Addendum, the University may terminate the Contract immediately without penalty upon notice to the Selected Firm/Vendor in the event Selected Firm/Vendor fails to maintain compliance with the PCI DSS or fails to maintain the confidentiality or integrity of any cardholder data.

**3. Employee Background Checks and Qualifications**

- a. In addition to the employee background checks provided for in the Contract, Selected Firm/Vendor shall perform the following background checks on all employees who have potential to access Sensitive University Data: Social Security Number trace; seven (7) year felony and misdemeanor criminal records check of federal, state, or local records (as applicable) for job related crimes; Office of Foreign Assets Control List (OFAC) check; Bureau of Industry and Security List (BIS) check; and Office of Defense Trade Controls Debarred Persons List (DDTC).

**4. Security Breach**

- a. Liability. In addition to any other remedies available to the University under law or equity, Selected Firm/Vendor will reimburse the University in full for all costs incurred by the University in investigation and remediation of any Security Breach of Sensitive University Data, including but not limited to providing notification to individuals whose Personally Identifiable Information was compromised and to regulatory agencies or other entities as required by law or contract; providing one year's credit monitoring to the affected individuals if the Personally Identifiable Information exposed during the breach could be used to commit financial identity theft; and the payment of legal fees, audit costs, fines, and other fees imposed by regulatory agencies or contracting partners as a result of the Security Breach.

**5. Audits**

- a. Selected Firm/Vendor will at its expense conduct or have conducted at least annually a: security audit with audit objectives deemed sufficient by the University, which attests the Selected Firm/Vendor's security policies, procedures and controls; ii) vulnerability scan, performed by a scanner approved by the University, of Selected Firm/Vendor's electronic systems and facilities that are used in any way to deliver electronic services under the Contract; and iii) formal penetration test, performed by a process and qualified personnel approved by the University, of Selected Firm/Vendor's electronic systems and facilities that are used in any way to deliver electronic services under the Contract.
- b. Additionally, the Selected Firm/Vendor will provide the University upon request the results of the above audits, scans and tests, and will promptly modify its security measures as needed based on those results in order to meet its obligations under the Contract. The University may require, at University expense, the Selected Firm/Vendor to perform additional audits and tests, the results of which will be provided promptly to the University.
- c. AICPA SOC Report (Type II)/per SSAE18: Selected Firm/Vendor must provide the University with its most recent Service Organization Control (SOC) audit report and that of all subservice provider(s) relevant to the Contract. It is further agreed that the SOC report, which will be free of cost to the University, will be provided annually, within 30 days of its issuance by the auditor. The SOC report should be directed to the appropriate representative identified by the University. Selected Firm/Vendor also commits to providing the University with a designated point of contact for the SOC report, addressing issues raised in the SOC report with relevant subservice provider(s), and responding to any follow up questions posed by the University in relation to the SOC report.

IN WITNESS WHEREOF, this Addendum has been executed by an authorized representative of each party as of the date set forth beneath such party's designated representative's signature.

Yes, any travel related expense would be in addition to the hourly rate and charged only for actual expense incurred with receipts made available upon request. Travel is very hard to predict and has been minor, averaging less than one day/night a month

Yes, I am working about eight to ten hours a week on various projects, all under auspices of Deb Dickenson: capital project office alignment, mandatory student fees, budget system rfp, RCAM budget model, BOV prep.

And I apologize but one last question. The RFP requested all travel be included in your hourly rate. But in your response you said you would bill travel separately above the hourly rates, correct?

Are you currently working on anything for Mason?

Good afternoon,

While I appreciate the financial constraints under which Mason must operate, my proposed hourly rate of \$185 is already significantly below what consulting firms will charge for services from a person of my experience and ability.

\$185 per hour is my best and final offer.

Thank you again for the opportunity to serve (and continue serving) Mason.

Transfer to Mason or a third party designated by Mason shall occur within a reasonable period of time, and without significant interruption in service. Contractor shall ensure that such transfer/migration uses facilities and methods that are compatible with the relevant systems of Mason or its transferee, and to the extent technologically feasible, that Mason will have reasonable access to University Data during the transition. In the event that Mason requests destruction of its data, Contractor agrees to destroy all data in its possession and in the possession of any subcontractors or agents to which the Contractor might have transferred University Data. Contractor agrees to provide documentation of data destruction to the University.

## **SECTION A: EXECUTIVE SUMMARY (RFP Section XIII:B:2)**

I am very pleased to submit this proposal to assist George Mason University with needs they may have in the following areas as listed in Section XI.B of the RFP:

- Financial analysis and budget planning
- Organizational and operational assessments and improvements (including process mapping)
- Business and financial modeling

I am submitting this proposal as an independent contractor. I do not have staff and I do not sub-contract. I have been working as an independent contractor for two years.

As a higher education finance professional, I have over 25 years of experience in higher education, working within universities and as a consultant nationwide. My primary areas of expertise are strategic financial planning, financial process assessment, financial system design and reporting, modeling, and stakeholder engagement. Fundamentally, I develop processes and analytics that enable executives and program managers to balance strategy and resource deployment at acceptable levels of risk. I bring a combination of analytical skill, higher education financial management experience and industry best-practice perspective. I am typically engaged by an institution's Chief Financial Officer and I strive to be responsive, versatile, and value-priced against other consulting firms.

Prior to working as an independent contractor, I was Vice President in the higher education consulting practice of Kaufman, Hall & Associates, LLC, where I partnered with CFOs on various financial planning and process engagements. Prior to Kaufman Hall, I was Senior Director at Tufts University, where I led the organizational design and implementation of a consolidated Budget Center and new operating budget development system. My previous campus positions include serving as Assistant Vice President for Budget Process and Reporting at Brandeis University and as Senior Financial Planning Officer at MIT. Previous consulting positions include Senior Consultant with the Stillwater Group and Associate with Cambridge Associates.

I hold an M.B.A. from Dartmouth College's Amos Tuck School of Business, an M.A. in Religion from Yale University's Divinity School, and a B.A. from Colgate University.

Currently, I am engaged by three clients: University of Miami, Colby College, and George Mason University (through Deb Dickenson). I have had a relationship with Mason since Spring of 2019. For now, I am not accepting new clients and I expect engagements with all three clients will likely be extended (Colby is already on retainer through August 2023).

None of my work is proprietary – all work product from my engagements is the property of the client.

I have very much enjoyed getting to know the staff at Mason over these last 3+ years and would welcome the opportunity to continue supporting Mason as it matures and further develops best practice financial management. Please do not hesitate to contact me if you would like to discuss my qualifications or services further.

Thank you for your consideration.

**SECTION B: GENERAL BACKGROUND AND INFORMATION (RFP Section XIII:B:3)**

My whole career, 28 years now, has been in higher education finance. About half of those years have been as a campus employee at MIT, Brandeis and Tufts and the other half at various consulting firms or as an independent consultant. I have worked with a wide range of colleges and universities across the country from private liberal arts colleges to state-wide public systems. And I have worked on a broad set of financial management challenges from information system implementations to process redesign, budget development, liquidity policy, financial planning, accounting, endowment management and debt capacity.

In the course of my career, I have needed to work with representatives at all levels and most functions of a university and, in so doing, I have developed my ability to hear the concerns of stakeholders and propose recommendations that serve their and the institution's interests. Stakeholder engagement, analytical aptitude and accumulated knowledge about higher education financial management practices are my three greatest strengths as a financial consultant.

I have enjoyed serving in the higher education sector because it offers complexity across stakeholders, funding sources and reporting requirements and, importantly, because it is mission driven. My plan, currently, is to remain an independent contractor for the balance of my career. I am enjoying success as a consultant and I expect my client relationships will only strengthen and expand over time.

The following page provides a chronological summary of my professional background.

## **SECTION C: REPRESENTATIVE ENGAGEMENTS AND REFERENCES (RFP Section XIII:B:4)**

Below are descriptions of three engagements that represent the type of assistance I typically provide CFOs.

### **University of Miami (current client)**

Brandon Gilliland, Vice President and Chief Financial Officer  
305-284-6297

I was first engaged by the University of Miami in 2017 while I was a consultant with Kaufman, Hall & Associates (KHA). Brandon Gilliland, Vice President and CFO, asked the KHA team to develop a strategic financial plan for the University's clinical enterprise and then set that plan in a higher education framework (Miami is evaluated by credit rating agencies such as Moody's Investors Service as a higher education – not Healthcare – institution). I was responsible for incorporating the healthcare plans into KHA's proprietary projection model and produce the germane higher education financial metrics. This rather hurried project was the beginning of a long-standing relationship for me with Brandon and the Miami team. Since the Winter of 2017, I have assisted or led numerous projects including:

- several debt-capacity analyses
- a multi-year effort to introduce balance sheet accounting at an allocated level, namely, for 1) UHealth, 2) Miller School of Medicine, and 3) Academy. This included serving as a project manager while Miami worked with PWC on accounting requirements.
- US News ranking analysis
- Liquidity and cash flow analyses
- Monthly financial performance updates for executives

More recently, Brandon has engaged me to assist with efforts to “digitally transform” Miami. Higher education, and many other industries, are actively exploring how advanced technologies such as machine learning and process automation can improve efficiency, reduce costs and focus staff on more analytical and strategic work. We have made progress introducing an Executive Portal for Finance that has summary graphics and data suitable to a senior audience. We are now working to expand the diagnostic features of the portal from balance sheet and statement of activity information to cash flow, investment, and eventually student and facility information. We are in the early stages of piloting process automation in the accounting area and predictive analytics in the financial planning area.

I am working with Miami on a retainer basis and support requests as directed by the CFO.

### **George Mason University (current client)**

Deb Dickenson, Interim Senior Vice President for Administration and Finance  
703-217-4826

I was first engaged by George Mason University in April of 2019 while I was a consultant with KHA. Carol Kissal, then Senior Vice President for Administration and Finance, requested assistance to develop a *Financial Framework* through which to assess and communicate Mason's financial condition and prospects. The material was presented at the July 2019 Board of Visitors annual conference. In the Fall of 2019, I provided a study of how Mason defined and communicated liquidity among its measures of financial assets, net assets, fund balances and carry forwards. Carol invited me back in April 2021 to assist with an update of the Financial Framework for the July 2021 BOV conference and later that Fall I worked with Mason's Treasury staff, Assistant Vice President for Capital Strategy & Planning, and Facilities Assistant Vice President for Planning, Design and Construction to develop a financial model that aligned funding plans with capital expenditure plans.

In the course of my work, I interacted with Deb Dickenson, then Vice President of Finance and now Interim SVP for A&F. In the Spring of 2022, Deb asked that I assist with analytics and drafting of the presentation for the July 2022 BOV conference. She requested, also, that I assess the alignment of capital project financial management among the four offices of Treasury, Budget, Capital Strategy & Planning, and Facilities (this project is currently underway). I continue to assist with various analytical requests as well. Deb has expressed desire to develop further Mason's policies around the accumulation and use of reserve balances though my work in this area has yet to begin in earnest.

Over the last three and one-half years, I have worked with numerous people at George Mason in accounting, treasury, budgeting, capital planning and facilities. It has been a pleasure working with such capable and committed individuals and I would welcome the opportunity to further develop financial practices at Mason as it continues to grow and mature as a first-rate public research university.

### **University of New England**

Nicole Trufant, Senior Vice President for Finance and Administration  
(Nicole is now Vice President and CFO for Colby College which is a current client)  
207-859-4774

I was first engaged by the University of New England (UNE) in April of 2021. Then Senior Vice President for Finance and Administration, Nicole Trufant, knew of my professional abilities through a former colleague of mine at Kaufman, Hall whom she had engaged for strategic financial planning. Nicole engaged me on a half-time basis for six months to assist on a range of projects. My primary role was to assess the Office of Financial Planning & Analysis and provide recommendations where appropriate for changes in process, staffing or technology. Additionally, I assisted with documentation of the current state process and policy for UNE's approval of capital expenditures. I wrote a substantial report to justify the investment of available cash balances in higher return, but more volatile, investments and I wrote for UNE an Excel projection model for strategic financial planning. Toward the end of my engagement, I assisted with very detailed analysis of the impact of proposed State of Maine and City of Portland requirements to increase the minimum wage for UNE's employees.

One feature of my engagement with UNE that I often provide was stakeholder interviews. I interviewed about ten staff at UNE. Whether from perspectives of customer service or financial solvency and risk, the Finance function has many University stakeholders that need to be engaged, listened to, and supported as the Finance division manages resources and implements practices. Where ever I work, I am cognizant that Finance as a function supports a larger whole, namely the University and its mission. Stakeholder engagement (whether through interviews, working groups, or other interactions) was a critical element for my work with UNE and has been critical for several other client engagements as well.

With her move in August 2022 to become Vice President and Chief Financial Officer for Colby College, Nicole has engaged me to assist her transition and further develop various financial processes, practices and systems at Colby.

**SECTION D: PROJECT APPROACH (RFP Section XIII:B:5)**

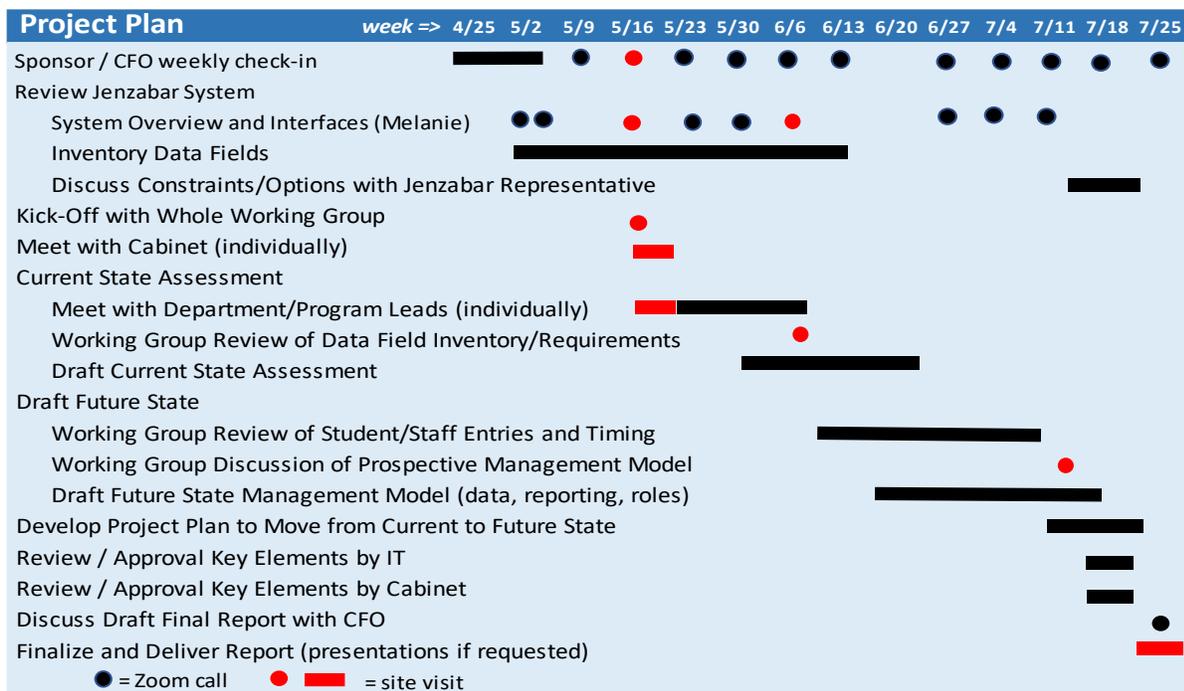

The plan or methodology I employ depends on the service I am asked to provide. As an independent contractor, I position myself as someone who, within finance, can serve a number of roles including trustee meeting preparation, financial modeling, process assessments, stakeholder interviews, report development, and various analytical studies. Each of these require different approaches and some services are short in duration, lasting only days or a few weeks. For longer projects, say of two or more months, I do have a typical approach, though again this may vary depending on the project.

I usually structure longer projects around a few key milestones such as:

- 1) Pre-kick off meeting with project sponsor / CFO
- 2) Kick-off meeting with working group to establish objectives, plan approach and request information
- 3) Evaluate available information/documentation
- 4) Interview stakeholders
- 5) Discuss current state assessment with project working group
- 6) Draft future state based on institutional requirements and industry best practice
- 7) Draft high-level plan to implement future state
- 8) Discuss final report with working group and project sponsor

For all my services, I maintain regular contact with my client, usually as a weekly, thirty-minute call with the CFO or Treasurer. I often share draft material at these check-ins that may be incomplete, but I do so to ensure I am heading in the right direction and ask questions or clarify requests. I employ this “agile” approach particularly on financial modeling projects where I have found an iterative process with a working group to be most effective. Initiative is critical for my role and I am quick to email or call to arrange meetings when necessary. I am aware staff are often very busy, so I am judicious about requesting any staff time. I usually work on an annual (or semi-annual) retainer basis which seems to be working well for both parties – the client has me on call for support as needed and I gain some structural stability for my practice.

An actual example of a project plan I recently completed for Lackawanna College is below.

**SECTION E: STATEMENTS REGARDING LEGAL STATUS (RFP Section XIII.B.6)**

In your proposal response please address the following:

- a) Are you and/or your subcontractor currently involved in litigation with any party?

*No, I am not currently involved in litigation with any party and I have no subcontractors.*

- b) Please list any investigation or action from any state, local, federal or other regulatory body (OSHA, IRS, DOL, etc.) related to your firm or any subcontractor in the last three years.

*I have no investigation or action from any state, local, federal or other regulatory body and I have had no subcontractors.*

- c) Please list all lawsuits that involved your firm or any subcontractor in the last three years.

*I have no lawsuits that involve me as an independent contractor and I have had no subcontractors.*

- d) In the past ten (10) years has your firm's name changed? If so please provide a reason for the change.

*I have been operating as an independent contractor since November 2020. I have been operating under my name, David Woodward, that whole time.*

**SECTION F: COST OF SERVICES AND PAYMENT PREFERENCE (RFP Section XII & XVI)**

Calendar year 2022, rate \$175 per hour  
Calendar year 2023, rate \$185 per hour  
Calendar year 2024, rate \$195 per hour  
Calendar year 2025, rate \$205 per hour  
Calendar year 2026, rate \$215 per hour

Plus travel related expenses billed for actual expenses only with receipts available upon request. My travel to Mason thus far has been very limited and remains hard to predict.

My payment preference is Option #3 as described below in the RFP:

*Option#3- Net 30 Payment Terms. Vendor will enroll in Paymode-X where all payments will be made electronically to the vendor's bank account. For additional information or to sign up for electronic payments, go to <http://www.paymode.com/gmu>. There is no charge to the vendor for enrolling in this service.*

Please know that on October 17, 2002, I was told by a representative at Paymode that I, as an individual, am not eligible for electronic payments. Mason has been paying me via paper check for many months and I understand this arrangement will need to continue.

6. If Contractor will have access to University Data that includes "education records" as defined under the Family Educational Rights and Privacy Act (FERPA), the Contractor acknowledges that for the purposes of the Contract it will be designated as a "school official" with "legitimate educational interests" in the University education records, as those terms have been defined under FERPA and its implementing regulations, and the Contractor agrees to abide by the limitations and requirements imposed on school officials. Contractor will use the education records only for the purpose of fulfilling its duties under the Contract for Mason's and its end user's benefit, and will not share such data with or disclose it to any third party except as provided for in the Contract, required by law, or authorized in writing by the University.
7. Mason may require that Mason and Contractor complete a Data Processing Addendum ("DPA"). If a DPA is completed, Contractor agrees that the information in the DPA is accurate. Contractor will only collect or process University Data that is identified in the DPA and will only handle that data (e.g., type of processing activities, storage, security, disclosure) as described in the DPA. If Contractor intends to do anything regarding University Data that is not reflected in the DPA, Contractor must request an amendment to the DPA and may not take the intended action until the amendment is approved and documented by Mason.

PP. UNIVERSITY DATA SECURITY: Data security is of paramount concern to Mason. Contractor will utilize, store and process University Data in a secure environment in accordance with commercial best practices, including appropriate administrative, physical, and technical safeguards, to secure such data from unauthorized

access, disclosure, alteration, and use. Such measures will be no less protective than those used to secure Contractor's own data of a similar type, and in no event less than reasonable in view of the type and nature of the data involved. At a minimum, Contractor shall use industry-standard and up-to-date security tools and technologies such as anti-virus protections and intrusion detection methods to protect University Data.

1. Immediately upon becoming aware of circumstances that could have resulted in unauthorized access to or disclosure or use of University Data, Contractor will notify Mason, fully investigate the incident, and cooperate fully with Mason's investigation of and response to and remediation of the incident. Except as otherwise required by law, Contractor will not provide notice of the incident directly to individuals who's PII was involved, regulatory agencies, or other entities, without prior written permission from Mason.
2. If Contractor provides goods and services that require the exchange of sensitive University Data, the Data Security Addendum attached to this Contract provides additional requirements Contractor must take to protect the University Data. Mason reserves the right to determine whether the University Data involved in this Contract is sensitive, and if it so determines it will provide the Data Security Addendum to Contractor and it will be attached to and incorporated into this contract. Types of University Data that may be considered sensitive include, but is not limited to, (1) PII; (2) credit card data; (3) financial or business data which has the potential to affect the accuracy of the University's financial statements; (4) medical or health data; (5) sensitive or confidential business information; (6) trade secrets; (7) data which could create a security (including IT security) risk to Mason; and (8) confidential student or employee information.
3. Mason reserves the right in its sole discretion to perform audits of Contractor, at Mason's expense, to ensure compliance with all obligations regarding University Data. Contractor shall reasonably cooperate in the performance of such audits. Contractor will make available to Mason all information necessary to demonstrate compliance with its data processing obligations. Failure to adequately protect University Data or comply with the terms of this Contract with regard to University Data may be grounds to terminate this Contract.

QQ. UNIVERSITY DATA UPON TERMINATION OR EXPIRATION: Upon termination or expiration of the Contract, Contractor will ensure that all University Data are securely returned or destroyed as directed by Mason in its sole discretion within 180 days of the request being made. Transfer to Mason or a third party designated by Mason shall occur within a reasonable period of time, and without significant interruption in service. Contractor shall ensure that such transfer/migration uses facilities and methods that are compatible with the relevant systems of Mason or its transferee, and to the extent technologically feasible, that Mason will have reasonable access to University Data during the transition. In the event that Mason requests destruction of its data, Contractor agrees to destroy all data in its possession and in the possession of any subcontractors or agents to which the Contractor might have transferred University Data. Contractor agrees to provide documentation of data destruction to the University.

Contractor will notify the University of any impending cessation of its business and any contingency plans. This includes immediate transfer of any previously escrowed assets and University Data and providing Mason access to Contractor's facilities to remove and destroy Mason-owned assets and University Data. Contractor shall implement its exit plan and take all necessary actions to ensure a smooth transition of service with minimal disruption to Mason. Contractor will also provide a full inventory and configuration of servers, routers, other hardware, and software involved in service delivery along with supporting documentation, indicating which if any of these are owned by or dedicated to Mason. Contractor will work closely with its successor to ensure a successful transition to the new equipment, with minimal downtime and effect on Mason, all such work to be coordinated and performed in advance of the formal, final transition date.

RR. UNIVERSITY REVIEW/APPROVAL: All goods, services, products, design, etc. produced by the Contractor for or on behalf of Mason are subject to Mason's review and approval.

SS. WAIVER: The failure of a party to enforce any provision in this Contract shall not be deemed to be a waiver of such right.
