- I. **PURPOSE:** The purpose of this Request for Proposal (RFP) is to solicit sealed proposals to establish a contract through competitive negotiations with a qualified source to provide consulting services to assist with Chart of Accounts redesign project. George Mason University (herein after referred to as “Mason,” or “University”) is an educational institution and agency of the Commonwealth of Virginia.
- II. **PURCHASING MANUAL/GOVERNING RULES:** This solicitation and any resulting contract shall be subject to the provisions of the Commonwealth of Virginia *Purchasing Manual for Institutions of Higher Education and their Vendor's*, and any revisions thereto, and the *Governing Rules*, which are hereby incorporated into this contract in their entirety. A copy of both documents is available for review at: <https://vascupp.org>
- III. **COMMUNICATION:** Communications regarding the Request For Proposals shall be formal from the date of issuance until a contract has been awarded. Unless otherwise instructed offerors are to communicate with only the Procurement Officers listed on the cover page. Offerors are not to communicate with any other employees of Mason.
- IV. **FINAL CONTRACT:** ATTACHMENT B to this solicitation is Mason’s standard two-party contract. It is the intent of this solicitation to base the final contractual documents off of Mason’s standard two-party contract and Mason’s General Terms and Conditions. Any exceptions to our standard contract and General Terms and Conditions should be denoted in your RFP response. Other documents may be incorporated into the final contract, either by way of attachment or by reference, but in all cases this contract document and Mason’s General Terms and Conditions shall jointly take precedence over all other documents and will govern the terms and conditions of the contract.
- V. **ADDITIONAL USERS:** It is the intent of this solicitation and resulting contract to allow for cooperative procurement. Accordingly, any public body, public or private health or educational institutions, or affiliated corporations may access any resulting contract if authorized by the contractor.

Participation in this cooperative procurement is strictly voluntary. If authorized by the Contractor(s), the resultant contract(s) will be extended to the entities indicated above to purchase goods and services in accordance with contract terms. As a separate contractual relationship, the participating entity will place its own orders directly with the Contractor(s) and shall fully and independently administer its use of the contract(s) to include contractual disputes, invoicing and payments without direct administration from the University. No modification of this contract or execution of a separate agreement is required to participate; however, the participating entity and the Contractor may modify the terms and conditions of the contract to accommodate specific governing laws, regulations, policies, and business goals required by the participating entity. Any such modification will apply solely between the participating entity and the contractor.

The University may require the Contractor provide semi-annual usage reports for all entities accessing the contract. The University shall not be held liable for any costs or damages incurred by any other participating entity as a result of any authorization by the Contractor to extend the contract. It is understood and agreed that the University is not responsible for the acts or omissions of any entity and will not be considered in default of the contract no matter the circumstances.

Use of this contract(s) does not preclude any participating entity from using other contracts or competitive processes as needed.

- VI. **eVA BUSINESS-TO-GOVERNMENT VENDOR REGISTRATION:** The eVA Internet electronic procurement solution, website portal www.eVA.virginia.gov, streamlines and automates government purchasing activities in the Commonwealth. The eVA portal is the gateway for vendors to conduct business with state agencies and public bodies. All vendors desiring to provide goods and/or services to the Commonwealth shall participate in the eVA Internet eProcurement solution by completing the free eVA Vendor Registration. All bidders or offerors agree to self-register in eVA and pay the Vendor Transaction Fees prior to being awarded a contract. Registration instructions and transaction fees may be viewed at: <https://eva.virginia.gov/>
- VII. **SWaM CERTIFICATION:** Vendor agrees to fully support the Commonwealth of Virginia and Mason’s efforts related to SWaM goals. Upon contract execution, eligible vendors (as determined by Mason and the Virginia Department of Small Business and Supplier Diversity) shall submit all required documents necessary to achieve SWaM certification to the Department of Small Business and Supplier Diversity within 90 days. Vendors currently SWaM certified agree to maintain their certification for the duration of the contract and shall submit all required renewal documentation at least 30 days prior to existing SWaM expiration. <https://www.sbsd.virginia.gov/>
- VIII. **SMALL BUSINESS SUBCONTRACTING PLAN:** In accordance with Executive Order 35 it is the goal of the Commonwealth that over 42% of its purchases be made from small businesses. All potential offerors are required to fill out and submit Attachments A with their proposal.

IX. PERIOD OF PERFORMANCE: Expected period of performance for tasks contemplated under this RFP is 3-6 months. Potential extension for Phase II activities (as described below) is possible, with duration dependent upon the scope and complexity of required implementation activities resulting from Phase I.

X. BACKGROUND: George Mason seeks to redesign the Chart of Accounts structure in its Banner ERP system to better meet the financial management needs of the institution. Mason implemented Banner ERP in 2004 and structured the Chart of Accounts within the ERP primarily to meet the requirements of the Commonwealth of Virginia's financial reporting system (then CARS, now Cardinal). While the interface to the Commonwealth's system is a critical need for Mason's accounting system, it is not the only or primary purpose of Mason's financial reporting. With the growing use of data analytics and dashboards, inconsistencies and inefficiencies in the Banner financial account structure (and related processes) have become more visible. The goal of this project is to take a fresh look at Mason's various reporting and analysis needs and design a sustainable Chart of Accounts structure to best meet those needs today and offer flexibility for the future.

Possible areas of opportunity include:

- A. Align the financial hierarchy with the academic hierarchy to enable financial reporting by academic program
- B. Align the financial hierarchy with the organizational hierarchy reflected in HR/Payroll to enable consistent security, reporting and analysis
- C. Enable Responsibility-Center Management (RCM) budget models with consistent structures between operations and financial data
- D. Establish guidelines for the use of COA elements (Fund, Organization, Account, Program, Activity, and Location) to maintain consistency across the university
- E. Examine the use of the general ledger to support multi-year projects (i.e., sponsored projects, capital projects) without distorting fiscal year reporting
- F. Leverage baseline Banner functionality to avoid redundancies and streamline/standardize processes

Creating a solid foundation with a functional COA structure will facilitate future initiatives for business reporting and analytics, data integrations, and operational efficiencies.

George Mason University seeks a professional services provider to assist in this effort. This services provider is expected to provide, at a minimum, deep expertise in Chart of Accounts design, particularly in relation to Banner functionality and best practices, higher education financial reporting and operations, and change management. The selected Firm is also expected to work closely with GMU's internal project management office (PMO), who will help facilitate and guide work efforts, and project sponsors and stakeholders to review findings, updates, and deliverables.

The requested scope of work for this effort is presented on the following pages. GMU is open to suggested scope adjustments in consultant responses, should those suggestions improve project efficiency and/or results.

XI. STATEMENT OF NEEDS: Mason seeks to redesign the Chart of Accounts (COA) structure in the Banner ERP system that serves as the backbone for financial recordkeeping and analysis. The COA foundation is leveraged for all general ledger financial transactions, reporting, and analysis in the Banner Finance module, but is also utilized for other modules that originate transactions such as Banner Student, Banner HR, and Banner Grants.

The COA is owned and managed by the Controller's office within the Division of Fiscal Services. The Controller will serve as the Project Owner for the project. The core project team will include representation from major stakeholder units, including Provost Administration, Information Technology Services, Research Administration, Institutional Research, Budget & Planning, and representative schools. A larger population of stakeholders will be involved in validating the proof of concept and providing feedback, but decision-making will rest with the Core Project Team under the supervision of executive sponsors.

The following provides a potential outline for the Chart of Accounts (COA) redesign project. This RFP is specifically for the Tasks included in Phase I. Once the roadmap is developed Phase I, GMU, in its sole discretion, may decide whether to execute Phase II without consultant assistance, proceed with assistance from the successful

proposer for Phase I activities, or execute another RFP to select an implementation consultant.

Phase I:

Task 1. Design and Analysis

- Identify key financial reporting objectives (budget/RCM, GASB, sponsored research, reserves tracking/analysis, Commonwealth of Virginia, etc.)
- Identify system requirements
- Draft Chart structure (segment definitions, hierarchy, rules, etc.)
- Map old COA to new COA

Task 2. Proof of Concept

- Testing and validation of proposed COA structure with stakeholders
- Finalize COA structure
- Draft roadmap and timeline for transition

Phase II:

Task 3. Implementation Strategy

- Change-management strategy
- Systems considerations (Banner and feeder systems)
- Historical data reporting considerations
- Communication, training and deployment considerations

Task 4. Implementation

- Activities TBD – dependent on Tasks 1-3

XII. COST OF SERVICES: For Phase I defined tasks (1 – 2) please provide hourly rates, estimated hours, and final costs. Rates may be a blended hourly rate or broken down by level of expertise (Partner, Senior Executive, Junior Executive, etc.) For Phase II please provide just hourly rates. In all cases hourly rates must include all travel-related expenses to the Fairfax campus and overhead costs. Travel expenses to other locations may be billed at cost, in accordance with Commonwealth of Virginia travel per diems.
